Available Finishes/Colors

- SOPS60TM-1

Black Glass Finish with Stainless-Steel Trim

KEY FEATURES

Black Glass Finish with Stainless-Steel Trim and Handle

Its sleek black glass and stainless-steel handle coordinates with P&C contemporary products, with elegant design and clean lines offering a stylish modern look for your kitchen.

True Fan Convection

Cook foods faster with the addition of a third element plus a fan that distributes hot air evenly over, under and around food so dinner is ready when they are.

Precise Control

Precise temperature adjustment is made through smooth and balanced dial movement. Brilliant halogen lighting, plus a large viewing window improve performance and efficiency.

9 Cooking Functions for Delicious Results

9 Cooking modes including, True Fan Convection, Grilling, Maxi Grill, Maxi Grill with Fan, Lower Element, Defrost, provides flexibility to ensure meals are cooked to perfection.

Size to Suit

At 2.5 cu. ft. Oven capacity, spacious built-in oven ever, to accommodate multiple dishes and your most favourite meals.

Pyrolytic Clean

This pyrolytic cleaning cycle uses high temperatures inside the oven to cause the oxidization and carbonization of grease accumulated during cooking.

Accessories Included

Grill/Roasting pan, Two chrome oven racks, Optional bottom vent grill (7427640 available).

- True Fan Convection
- Dial Control Knobs
- Grilling
- MAXI Grill
- MAXI Grill with Fan

ELECTRICAL REQUIREMENTS

208/240 V / 60Hz / 20 Amp

*Supplied with a 5ft long electrical cable and must be hardwired.

Installation Details

CUT-OUT DIMENSIONS (INCH/MM)

Width: min. 22^{1/16"} / **Height:** 23^{1/4"} / **Depth:** min. 22^{13/16"}

Width: min. 560mm / **Height:** 590mm / **Depth:** min. 580mm

- P&C Ovens are supplied with a 5ft long electrical cable and must be hardwired.
- P&C Ovens operate using the following wires: **RED & BLACK**, Live Wires **GREEN**: Ground The Neutral (White) wire is not required for the electrical install.

- If the oven is mounted in a tall or semi-tall cabinet, there must be a minimum gap of 1 9/16" (4cm) cut out of the shelf and behind the upper cabinet to allow air to flow freely.
- A void must be cut out in the shelf of the cabinet. Leave 4" of shelf material around the void.
- Additional support must be added to the shelf with the void. The support must be able to withstand the oven weight.
- If insufficient airflow is not provided, the life span of the appliance will be shortened.
- Cut out in the toe kick is required for adequate airflow.
- Bottom vent grill (7427640) available.

- Install false backs for storage spaces. This will prevent contents from falling through the vent space. In addition, warm air will not interfere with store contents.

Airflow Requirements

- If the oven is being placed under the counter, there must be a minimum gap of 1 9/16" (4cm) cut out of the shelf behind the oven to allow air to flow freely.
- A void must be cut out in the shelf of the cabinet. Leave 4" of shelf material around the void.
- Additional support must be added to the shelf with the void. The support must be able to withstand the oven weight.
- If insufficient airflow is provided, the life span of the appliance will be shortened.
- Cut out in the toe kick is required for adequate airflow
- Optional bottom vent grill (7427640) available model.
