QUICK REFERENCE GUIDE > RF203QDUVX1

Freestanding Quad Door Refrigerator Freezer, 36", 18.9 cu ft, Ice & Water

Series 7 | Contemporary

Stainless Steel | French hinge

With brilliant LED lighting and three independent compartments including a Variable Temperature Zone, for truly flexible storage.

- ActiveSmart[™] technology helps keep food fresher for longer by constantly maintaining the ideal temperature.
- Door water dispenser and internal ice maker with boost function
- Variable Temperature Zone lets you change a compartment to Fridge, Chill, Soft Freeze or Freezer for optimal storage

 Spacious bottom freezer with full extension drawer gives easy access to frozen goods

DIMENSIONS

Height 70 1/2"

Width 35 5/8"

Depth 27 1/16"

FEATURES & BENEFITS

VARIABLE TEMPERATURE ZONE

At the touch of a button, easily convert the lower right compartment to suit different food types, giving you storage flexibility for everyday needs as well as special occasions. Choose from Freezer, Soft Freeze, Chill and Fridge modes.

FLEXIBLE STORAGE

Three large, independent compartments provide ample storage space. Easily adjustable cantilevered shelving in the refrigerator and full extension bins in the freezer provides maximum storage flexibility. A Variable Temperature Zone in the lower right compartment provides a true freezer temperature of -0.4°F.

ACTIVESMART™ FOODCARE

ActiveSmart™ Foodcare learns how you live. It is technology which understands how you use your fridge and adjusts temperature, airflow and humidity inside to help keep food fresher for longer.

ULTRA SLIM WATER DISPENSER

The slimline water dispenser is easy to use. The angled water delivery means that almost any size or shape of vessel can be filled. The slimline design maximizes storage space inside the door.

ICE MAKER

The internal ice maker delivers fresh ice to a dedicated freezer bin. Simply turn it off to free up freezer space or during busy times boost ice production by up to 30%.

DESIGN QUALITY

Our refrigerators are built using quality materials. We use real stainless steel, and solid glass for the interior shelving.

Thoughtfully designed bins feature smooth, fully extendable telescopic runners for full access to storage space.

EASY ONE-TOUCH CONTROL PANEL

Control panels for the refrigerator and freezer are conveniently located inside the their respective compartments, allowing you to view and modify the features and options to suit any occasion. The Variable Temperature Zone control is on the top of the compartment door so you can easily select your desired food mode or adjust manually.
