4K ULED

The U68K series expands on picture quality and audio upgrades and makes the transition to the Google TV operating system. The U68K series adds HDR10+ Adaptive and Dolby Vision IQ to its already long list of supported HDR formats. These technologies incorporate environment lighting considerations to their HDR interpretations making HDR more accurate depending on the ambient lighting in your room. Game Mode Plus adds variable refresh rate (VRR) at 60Hz for smoother gaming on next generation game consoles. With WiSA ready software, the U68K is now equipped to connect to the latest WiSA compatible speakers for a complete surround sound experience without the need for running speaker wires throughout the room. Creating even more robust audio and visual experiences , providing value without compromise, the 2023 U68K series continues to be the Hisense television that's great for everyone.

Quantum Dot
With 1 billion+ shades, Hisense Quantum Dot ULED TV displays true lifelike colours and reproduce a larger colour palette with beautiful gradation, elevating the overall picture quality to a remarkable level with authentic colour, brilliant contrast, clear motion, and distinct details.

Full Array Local Dimming
With 10 years of expertise in local dimming, Hisense TV manages individual areas of backlights edge to edge, presenting richer and more intense blacks with astonishing highlights. It translates to notable and sharp picture quality with incredible HDR effect.

Dolby Vision™ • Dolby Atmos®
See and hear what you've been missing. Connect more deeply to the shows and movies you love when you watch them in Dolby. Dolby builds a deeper connection to the stories and characters you love and take your entertainment to new heights when you stream your favorite shows and the best movies.

Smooth Motion and 60Hz Native Refresh Rate
Smooth Motion removes the digital 'noise' that can affect moving objects. The TVs native 60Hz refresh rate is the foundation for it's 240 motion rate. These technologies work in tandem to make fast-action scenes to ensure moving objects have minimal blurring. Add in VRR up to 60fps and you've got a great option for the casual gamer in your life.

HDR 10+
Delivers original content with better detail in the shadows and brighter highlights.

Ambient Light Adaptive
By adjusting the contrast and brightness automatically, the TV turns your space into a dramatic cinema that you can enjoy to its full extent at any time of the day.

Filmmaker Mode
Filmmaker Mode disables any motion processing adjustments from the projector settings to ensure you're seeing content exactly the way the moviemakers intended.

Works with Alexa
This television works with Alexa through any of your Alexa-enabled devices. Just ask Alexa to switch the TV on or off, change channels and lots more.

Bluetooth® Connectivity
Wirelessly connect a compatible soundbar, headphones or speakers to your TV. Then turn it up.

Google Assistant
Your TV is more helpful than ever. Use your voice to find movies, stream apps, play music and control the TV. Ask Google to find a specific title, search by genre, or get personalized recommendations by saying, "what should I watch?" Even get answers on screen, control smart home devices, and more. Press the Google Assistant button on the remote to get started.

TECHNICAL SPECIFICATIONS
