65" U88N

U88N Series Mini-LED QLED 4K Google TV
Model-65U88N

Experience unparalleled brightness, colour, and detail with the U88N's Mini-LED PRO and Quantum Dot technology. Enjoy smooth action with its native 144Hz refresh rate, perfect for movies, sports, and gaming. Immerse yourself in cinematic audio with Dolby Atmos-powered 2.1.2 multi-channel audio, bringing heart-pounding action, intense gameplay, and immersive sports viewing to life.

QLED

Quantum Dot Wide Colour Gamut technology reproduces over a billion colour combinations for a wider spectrum of colours for true to life images.

Full Array Local Dimming

Equipped with up to 1,600 dimming zones combined with state-of-the-art video processing, the results are intense black levels with vibrant colour reproduction.

Game Mode PRO

Serious gamers wanted! With a winning combination of technology, 144Hz Game Mode Pro is the one to beat. A variable refresh rate from 48Hz to 144Hz ensures that your console and PC gaming will meet any opponent head on. AMD FreeSync™ Premium Pro and Auto Low Latency Mode virtually eliminate screen tearing and controller input lag. Dominate the game – it's time to level up!

Dolby Atmos Sound (2.1.2 Channel with Subwoofer)

Elevate your auditory experience with award-winning audio enhancement that unveils what you've been missing. Take your movie and gaming escapades to new heights with a 2.1.2 audio channel featuring a subwoofer, enhanced by Dolby Atmos for precise three-dimensional audio placement that breaks free from conventional channels.

Mini-LED PRO

Smaller LED's allow for more of them to be incorporated into our back-light technology. This leads to the delivery of superior brightness, richer colours, and sharper details compared to conventional LED TVs.

144Hz Refresh Rate

Whether it's sports, action movies or pure gaming, this high frame rate greatly reduces motion blur to reproduce a clearer picture.

High Brightness Level

With a brightness level of 3,000 nits in Hisense TVs, you can enjoy an optimal viewing experience even in well-lit rooms with abundant lighting.

Low Reflection Screen

The Low Reflection Screen minimizes distractions from reflections, reducing up to 75% of unwanted glare. Enjoy uninterrupted midday matches and evening movies without sunlight or lamp reflections disrupting your viewing experience.

Total HDR Solution

Hisense TVs have taken the sensible approach to HDR with support for all major formats, including Dolby Vision, HDR10, HDR10+, and HLG. Never worry about subpar video quality or compatibility again.
