

PARTYLIGHT BEAM

Bluetooth projection party light

Make your party vibe.

An unforgettable party doesn't just sound incredible—it should look amazing too. Now you can create your own immersive environment with the JBL PartyLight Beam. This light wirelessly syncs with your JBL PartyBox speakers to project a colorful and kinetic party light—one that's big enough to cover a large room—onto any wall or ceiling. (And if you're partying in an even bigger space, you can sync multiple PartyLight Beams to create a choreographed lightshow in less than a minute.) Adjust the angle to center the light show where you want it and let the vibrant colors match your party's energy throughout the night—from mellow ambient grooves to epic dance beats to the pure delirium of your party's peak energy. Control the adjustable motion, speed, and intensity settings quickly and easily with the JBL PartyBox app. Elevate your party space to the next level with the unbeatable combination of the JBL PartyBox and JBL PartyLight Beam.

PARTYLIGHT BEAM

Bluetooth projection party light

Features and Benefits

Take your party to the next level

The JBL PartyLight Beam syncs automatically with JBL PartyBox* lightshow or your music, turning your party into an awesome sensory experience.

*Auracast enabled

Room-filling party atmosphere

Just one JBL PartyLight Beam can fill a room up to 400 square feet (40 square meters) with 20 watts of immersive light shows.

Choreographed Lightshow

With multiple JBL PartyLight Beams connected together, the built-in music detection algorithm will create an even bigger group lightshow—all in less than a minute.

Match your energy

Set the mood of the moment with adjustable motion, speed, and intensity levels that take the vibe from mellow to medium to peak party excitement.

JBL ONE app / PartyBox app

Use the JBL ONE app or PartyBox app to adjust lightshow's speed, colors, patterns and even connect multiple JBL PartyLight Beams, right at your fingertips.

Easy to turn the light on and off

Rotate the JBL PartyLight Beam to turn it on. Swing it back into position to turn it back off. It's that simple.
