

Whirlpool® 30" Range Hood with Dishwasher-Safe Full-Width Grease Filters

WVU37UC0FS

Available Finishes/Colours

	WVU37UC0FS Stainless Steel
---	-------------------------------

Installing this stove hood is quick and easy. The FIT system eliminates measuring, cutting and filler strips for a smooth fit every time. Once installed, the hood vent kitchen fan operates at a quiet 0.5 sones at its lowest of three fan speeds so it won't disturb family time in the kitchen. A full-width grease filter easily cleans for reuse while LED task lighting helps you keep a close eye on food so each dish turns out the way you want it to. And when cooking introduces steam, grease, smoke or odors into the surrounding air, a 265 CFM motor class takes care of it.
