Features & Benefits

Stainless Steel Burners

The precision ported U-shaped stainless steel burners are rated at a massive 25,000BTU each, offering premium quality and performance. A heat shield directs heat upwards maximizing heating efficiency.

Ceramic Radiant Technology

A layer of ceramic rods provides intense yet even heat. It gives a consistent grilling surface, with controlled heat rather than direct fire.

Direct Burner Ignition

An ergonomic ignition solution, where burners are lit directly from the corresponding knobs.

Smart Beam™ Grill Light

A halogen light is designed to illuminate the entire cooking surface for perfect night grilling.

Temperature Gauge - zero to sear

Go from zero to sear with DCS Grills' new built-in temperature gauge. It lets you know exactly how hot the grill is, even when the hood is down.

Rotisserie made easy

Inspired by our commercial heritage, DCS Rotisserie Grills are the perfect package of robust construction, powerful motor, consistent temperatures and strong forks. DCS Rotisserie Grill models feature a dedicated infrared rotisserie burner, providing controlled searing up to 14,000 BTU per hour. The heavy-duty motor allows you to load your Thanksgiving turkey (and more!), while the Smart Beam™ Grill Light illuminates the entire cooking surface for perfect night grilling. Load up your new DCS Grill's rotisserie then sit back and let the grill do the work.

Precision heat and control

A DCS Grill puts you in control of up to a massive 64,000 BTU per hour total power. That power lets you choose the precise heat you need from a low and slow 300° up to an intense 1100°. DCS Grills do more than help you grill an incredible steak, you can close the specially designed hood and use the power of convection to cook the perfect pizza. DCS Grills put you in control, giving you the versatility to cook what you want.

Full Surface Searing

This grill features full surface searing, rather than uneven hotspots.

Drip Pan

DCS Grills feature a removable drip pan, conveniently located in a slide-out tray to allow for easy cleaning.

Real steel - inside out

Assembled by hand from heavy duty 304 stainless steel, inside and out, DCS Grills are built to handle most everything Mother Nature can throw at them.

Comprehensive Warranty

Your DCS Outdoor Grill comes with a class-leading warranty including 2 years full coverage for parts and labor and a lifetime warranty on the grill burners, hood, cooking grates, burner box and racks.* * Lifetime warranty excludes discoloration or surface corrosion. For complete DCS Warranty details refer to the Use & Care Guide.

Specifications

Accessories sold separately

Optional cart-mount CAD1-30 / BGB30-CSS

Cooking surface area

Cooking surface area 748sq. in.
Primary cooking area 195sq. in.
Warming rack area 553sq. in.

Cut

Cutout depth 22 3/4 "
Cutout height 10 1/8 "
Cutout width 28 1/2 "
Insulated jacket (different cut-outs
needed-check manual) BGB30-IJS (optional)

Finish

Built in •
Finish 304 grade stainless steel
Optional cart-mount CAD1-30 / BGB30-CSS
Weather resistant •

Gas Requirements

1/2" NPT male with 3/8" in flare adapter •
Gas requirements LP
LP hose with regulator and Type 1
connector •
