Features & Benefits

Instant response

Go from a boil to a simmer in seconds. Fisher & Paykel Touch&Slide controls react immediately when you adjust the temperature so you don't waste time in the kitchen.

Safer choice

Induction cooktops only start heating your pot or pan once you've placed it on the ceramic surface and stop as soon as you remove it – so you don't have to worry about curious little fingers or leaving an element on.

Easy cleaning

The surface around your cookware stays cool when you cook – preventing baked-on spills and making cleaning up a breeze. The durable ceramic cooktop surface just needs a quick wipe after use to maintain its good looks.

Enhanced features

PowerBoost and GentleHeat deliver either very high or very low heat fast for specialized cooking tasks such as searing meat and melting chocolate. An integrated timer keeps you on track.

Superior efficiency

PowerBoost and GentleHeat deliver either very high or very low heat fast for specialized cooking tasks such as searing meat and melting chocolate. An integrated timer keeps you on track.

Precise control

Fisher & Paykel induction cooktops offer extremely accurate, consistent temperature control from very high to very low heats, so you can sear, sauté and temper like a pro.
