

## CINGOLI ISLAND

LED light with dimmer

Designed to be suspended above a kitchen island, Cingoli takes flight with graceful 36" or 42" arched glass wings, which allow natural light to illuminate the surface below. The expansive glass wings are complemented by reflective stainless steel. The beauty of Cingoli is combined with features such as a powerful 600 CFM blower, dishwasher-safe stainless steel microhole filter and glass touch controls that deliver convenience and safety.

Designed for standard ducted installation, Cingoli can also be installed as a recirculating system using the Recirculating Kit, available as an accessory.

FEATURES

Size (in) & Type	36" or 42" wide Island Chimney
Finish	Stainless Steel + Black Glass
Controls	Touch Control 3S + Booster
Illumination	2 Premium LED Dimmable Lights
Installation Type	Ducted, Recirculating Kit sold separatly
Blower Type	Speed 1, 160 CFMs Speed 2, 280 CFMs Speed 3, 470 CFMs Speed 4, 600 CFMs
Filter Type	Dishwasher- Safe, Staineless Steel Microhole Filter
Noise (sones) *Working speed:	Min: 2.36, Max: 6 Sones
Duct Transition	Round 6"/150cms
Electrical	120 Volts, 60 Hertz, 394 Watts, 3.27 Amps

PLUS

**AMBIENT LIGHT**

Elica studies on hood lighting leaves no stone unturned. Here we have thought about products not only able to light the cooktop, but the entire kitchen space. And so the hood is transformed: from a kitchen appliance to a true lighting element. Considering the design of Elica hoods, it is not hard to imagine how this option is unique, and represents one extraordinary point of strength for us.

**LED LIGHT**

LED lighting is undoubtedly the smartest solution in terms of energy saving. Expected life time of over 20.000 hours, represents the most remarkable advantage of LED light bulbs.

**HUSH SYSTEM**

An exclusive sound deadening technology that effectively reduces sound levels by over 35%, compared to typical range hoods.

**DIM-LIGHT**

The Dimmer allows you to adjust the brightness of the light as you wish. With Elica, lighting is customized in a discreet, personal and practical way, in order to contribute in creating the perfect kitchen atmosphere.

**TOP PERFORMANCE**

Excellent performance for models equipped with this plus. High fume capturing capacity with an average aspiration range of 600 CFMs. With a noise level between 60-65 db(A) at maximum speed (reference point varies based on the hood category).

**CFM REDUCTION**

CFM Reduction System (CRS), is an exclusive feature to Elica hoods, which enables the installer to reduce the maximum blower CFM, to meet local code requirements.
