Unit Dimensions

A. 3-9/16" (92 mm)

D. 24-1/4" (616 mm)

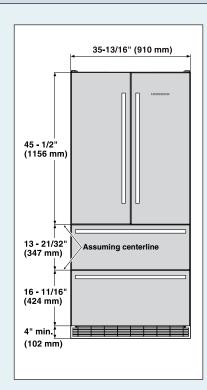

B. 79-13/16" (2027 mm)

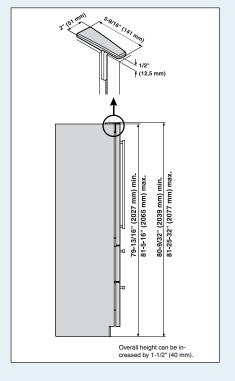

E. 40-3/4" (1035 mm)

C. 35-13/16" (910 mm)

F. 39-1/2" (1003 mm)

Top Door Hinge Clearence

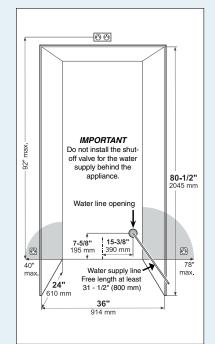

When installing CBS 20 units into a row of cabinets or wall units, use these dimensions to achieve a custom look with the cabinetry.

Consider the necessary clearance for the top door hinge with CBS 20 units.

Cabinet Opening Dimensions

The position of the electrical outlet can be within the grey shaded areas or above the appliance.

The appliance can be used freestanding or semi built-in. If semi built-in, consider the cabinet opening dimensions specified below.

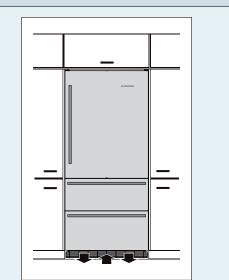

Minimum opening height for the **french door** 36" model (CBS 2062) is **80-1/2"** to accommodate the top mounted hinges.

The requirements for water supply and electrical outlet are the same for both applications.

IMPORTANT

With 24" depth cabinets, the water line opening must be in the location as shown as there will not be room to route a water line behind the appliance for risk of pinching. Also, for this cabinet depth the electrical outlet cannot be behind the unit or the unit will not be able to be pushed all the way back into the opening. With cabinets deeper than 24" there is room to fit the pipe behind the appliance and the wall so there are no requirements for the water line lead out position.

Ventilation Requirements

CBS 20 appliances dont need any ventilation openings in the cabinet. The required airflow is directed through the toe kick area.

It is important to use the provided cover grille for the ventilation opening. This opening must not be covered with a cabinet base.

Features

Liebherr's DuoCooling system with separate variable speed compressors for the refrigerator and the freezer provides superior performance and efficiency, as well as advanced food preservation. The dual refrigeration system creates optimal conditions in both the refrigerator and freezer compartments, which lengthens the shelf life of food items for a healthier lifestyle. Separate silent cooling systems ensure accurate temperature and humidity control so that food does not dry out.

German Engineering: Our superior products offer premium quality, cutting edge design and innovative features that fit your busy lifestyle. Exclusive components and materials, along with the latest production processes, ensure energy efficiency and performance for years to come.

Energy Star: Liebherr refrigerators help produce less energy waste and greenhouse gas emissions with the goal of having the least damaging effect on the environment, while offering solutions that help consumers conserve energy.

BioFresh: BioFresh guarantees the perfect climate for super-long-term freshness. Each drawer can be used individually and provides ideal humidity — HydroSafes with high humidity or DrySafes with low humidity — for a versatile storage solution of meats and cheeses as well as fruits and vegetables.

DuoCooling: The dual refrigeration system creates optimal conditions in both the refrigerator and freezer which lengthens the shelf life of food items for a healthier lifestyle. This technology also preserves the flavor and texture of foods since there is no transfer of unwanted air, moisture or food aroma between the two compartments.

SuperCool/SuperFrost: Simply quick chill and/or freeze fresh groceries to preserve optimum freshness and seal in flavors, textures as well as maintain essential vitamins and minerals.

SuperQuiet: Noise is kept to a minimum with virtually silent, speed controlled compressors and a low-noise cooling circuit; while also ensuring exact performance, energy efficiency and SuperQuiet operation.

Electronic Display: Our intuitive electronic touch control panel ensures all functions are easy and convenient to use as well as guarantees that the settings selected remain accurate and constant.

GlassLine: The elegant yet tough GlassLine shelves are scratch resistant and easy to clean as well as dishwasher safe. The space-saving shelves are designed for organization and are completely adjustable to suit your needs and the contents of the refrigerator. Additionally, the lighting shines through for a brighter interior.

LED: Distinctive LED light columns are integrated into both sides of the compartment liner. Inside the columns are numerous cool LED lights that ensure uniform lighting throughout the interior.
