IMPORTANT

Factory available stainless steel panels are designed for an inset installation only and require a cabinet / gable depth of 24 - 3/4".

GERMAN

German Engineering: Our superior products offer

features that fit with your busy lifestyle. Plus,

latest production processes ensure energy

efficiency and performance for years to come.

SuperQuiet: Noise is kept to a minimum with

a low nose cooling circuit; while also ensuring

exact performance, energy efficiency and

SuperQuiet operation.

virtually silent, speed controlled compressors and

premium quality, cutting edge design and innovative

exclusive components and materials along with the

ENGINEERING

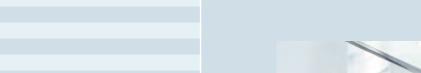

The **HC 1540** model is perfect for a seamless design because it is cleverly concealed behind cabinet doors. With a fully integrated door-on-door system that incorporates strong hinges for a convenient closing of doors even when fully loaded. Double freezer drawers mounted on smooth telescopic rails offer more than 4 cubic feet of storage space and the drawer system offers convenient handling and viewing of food stored. A water connection is not needed for the IceMaker thanks to a well appointed 1.5 liter internal water tank that is conveniently removable for filtered water to produce ample pure crescent ice.

LED: Distinctive LED light columns are integrated into both sides of the compartment liner. Inside the columns are numerous cool LED lights that ensure uniform lighting throughout the interior.

Electronic Display: Our intuitive electronic touch control panel ensures all functions are easy and convenient to use as well as guarantees that the settings selected remain accurate and constant.

SuperCool/SuperFrost: Simply quick chill and or freeze fresh groceries to preserve optimum freshness and seal in flavors, textures as well as maintain essential vitamins and minerals.

DuoCooling: The dual refrigeration system creates

freezer which lengthens the shelf life of food items

optimal conditions in both the refrigerator and

for a healthier lifestyle. This technology also

preserves the flavor and texture of foods since

there is no transfer of unwanted air, moisture or food aroma between the two compartments.

Energy Star: Liebherr refrigerators help to produce less energy waste and greenhouse gas emissions with the aim to have the least damaging effect on the environment and offering solutions that help consumers conserve energy.

GlassLine: The elegant yet tough GlassLine shelves are scratch resistant and easy to clean as well as dishwasher safe. The space-saving shelves are designed for organization and are completely adjustable to suit your needs and the contents of the refrigerator; additionally the lighting shines through for a brighter interior.

Door-on-door technology: Allows custom panels to be affixed directly onto the appliance so that the hinges are concealed, plus the cabinet and the fridge open as one, ensuring a wide range of design options and easy installation.

^{*} Your Energy Cost will depend on your utility rates and use. Estimated energy cost based on a national average electricity cost of 12 cents per KWh
