## WARNING

To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture

To reduce the risk of fire, do not cover the ventilation opening of the appliance with newspapers, tablecloths, curtains, etc. Do not expose the appliance to naked flame sources (for example, lighted candles).

To reduce the risk of fire or electric shock, do not expose this apparatus to dripping or splashing, and do not place objects filled with liquids, such as vases, on the apparatus

As the main plug is used to disconnect the unit from the mains, connect the unit to an easily accessible AC outlet. Should you notice an abnormality in the unit, disconnect the main plug from the AC outlet immediately

The unit is not disconnected from the AC power source (mains) as long as it is connected to the wall outlet, even if the unit itself has been turned off.

Do not install the appliance in a confined space,

such as a bookcase or built-in cabinet

Excessive sound pressure from earphones and headphones can cause hearing loss Do not expose the batteries (battery pack or

batteries installed) to excessive heat such as sunshine, fire or the like for a long time The nameplate is located on the bottom exterior.

# Owner's Record

The model and serial numbers are located on the bottom of the unit. Record these numbers in the space provided below. Refer to them whenever you call upon your Sony dealer regarding this product.

Model No. <u>CFD-S70</u> Serial No.

## Important Safety Instructions

- 1) Read these instructions 2) Keep these instructions
- Heed all warnings 4) Follow all instructions
- 5) Do not use this apparatus near water.
- ) Clean only with dry cloth.
- 7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- 8) Do not install near any heat sources such as radiators, heat registers, stoves, or other
- apparatus (including amplifiers) that produce 9) Do not defeat the safety purpose of the
- polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outle consult an electrician for replacement of the 10) Protect the power cord from being walked on or
- pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11) Only use attachments/accessories specified by the manufacturer.
- 12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/ apparatus combination to avoid injury
- 13) Unplug this apparatus during lightning storms or when unused for long periods of time

14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as powersupply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped

The following FCC/IC statement applies only to the version of this model manufactured for sale in the USA and Canada. Other versions may not comply with FCC/IC technical regulations.

For United States customers. Not applicable in Canada, including in the province of Quebec.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna. Increase the separation between the equipment
- and receiver. Connect the equipment into an outlet on a
- circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

## **CAUTION**

You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment

To turn the power on or off Press (b) (power) 1

To adjust the volume

Press VOLUME + or - 6 The volume level of this unit is adjustable in steps from 0 to 31. If you want to adjust the volume level continuously

hold the button down, and release it at the desired

To listen through headphones

Connect headphones to the  $\Omega$  (headphones) jack To protect your hearing, avoid listening at excessive

To turn the bass enhancement function on or off

Press **MEGA BASS** 7 When you press the button, the function will either switch on ("MEGA BASS" lights up) or off ("MEGA BASS" disappears). By default, this function

## Playing a music disc

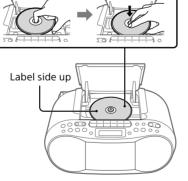

- 1 Press (1) 1 to turn on the power of the unit.
- 2 Insert the tip of your finger into the opening tab to open the CD compartment cover.

**3** Place a disc in the CD compartment and then close the compartment cover

0000

Push down on the center of the disc until it fits into place.

The disc is loaded and the disc information appears on the display.

## Audio CD

(Total number of tracks and total playing time appear in order.)

Total number of tracks

MP3 disc

4 Press CD PLAY/PAUSE (►II) 9 to start

Playing time\*2,3

\*1 If MP3 files are present only in the root directory, "001" appears on the display.

\*2 If the playing time is longer than 100 minutes, "--:--"

appears on the display \*3 By pressing **DISPLAY/ENTER** [11], the playback screen changes between showing playing time and the current track number (or showing the current folder

### To switch to the CD function from other functions

If a previously played disc has been set, playback will start automatically. Press **STOP** (■) 9 to stop playback if necessary.

### Other operations

and file numbers (MP3)).

Press CD PLAY/PAUSE (►II) 9.

То	Do this
Pause playback	Press CD PLAY/PAUSE (>II) 9. To return to playback, press the button again.
Stop playback	Press STOP (■) ⑨. If you press CD PLAY/PAUSE (►II) ⑨ after playback has been stopped, playback will start from the beginning of the track/file you were last playing (Resume Play). If you want to start playback from the first track/file on the disc, press STOP (■) ⑨ twice, and then press CD PLAY/PAUSE (►II) ⑨.
Select a folder	Press <b>TUNE/</b> + or - 3.

on an MP3 disc Press I or ►► 5. You can Select a track/ skip tracks/files one by one. Hold down **I**◀◀ or ▶▶**I** 5

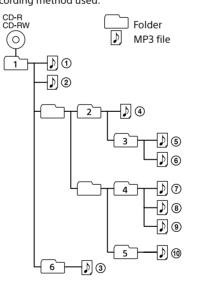

during playback, and release the button at the desired point. When locating a point while CD PLAY/PAUSE (►II) 9 to start playback after the desired

point is found.

Resume Play is cancelled in the following cases - When you open the CD compartment cover

- When you turn off the power.

Example of folder structure and playing order The playing order of the folders and files is as follows. However, the playing order may differ from the original order on the disc, depending on the recording method used.

## Notes on MP3 discs

- When a disc is loaded, the unit reads all the files on that disc. During this time, "READ" is flashing. If there are many folders or non-MP3 files on the disc, it may take a long time for play to begin or for the next MP3 file to start to
- We recommend that non-MP3 files or unnecessary folders are excluded when creating MP3 discs.
- During playback, audio files other than MP3 files are skipped even if those files are included in a folder. This system can only play MP3 files that have a file
- extension of ".mp3" Note that even if the file name has the correct file extension but the actual file was created in a different audio format, this unit may produce noise or may malfunction.
- MP3 PRO format is not supported.
- This unit cannot play audio files on a disc in the following
- When the total number of audio files exceeds 413. - When the total number of folders on a single disc exceeds 99 (including the "ROOT" folder)
- When the directory level (folder depths) exceeds 9 (including the "ROOT" folder).

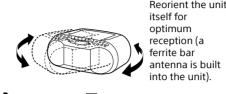

## Listening to the radio

- 1 Press (1) 1 to turn on the power of the unit.
- **2** Adjust the antenna for optimum reception.

Extend the telescopic antenna 17 and adjust its length and angle for optimum

AM

- **3** Press **FM/AM** 2 repeatedly to select the "FM" or "AM" band.
- 4 Hold down TUNE/ + or 3 until the frequency digits begin to change on the display.

The unit automatically scans the radio frequencies and stops when it finds a clear

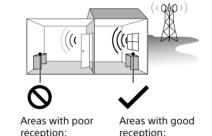

If you cannot tune to a station using automatic tuning mode, press **TUNE**/ + or - 3 repeatedly to change the frequency step by step When an FM stereo broadcast is received, "ST" lights up on the display.

• The unit of frequency of tuned stations is MHz for the FM band and kHz for the AM band.

 If the stereo FM reception is noisy, press PLAY MODE 10 repeatedly until "Mono" appears on the display. You will lose the stereo effect, but the reception will be improved.

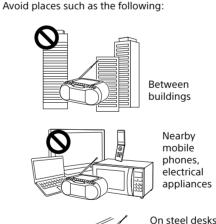

## To improve radio reception

Use the radio in a place where radio signals can be easily received such as near a window. Also, adjust the antenna (FM) or reorient the unit itself (AM) for good reception

If the reception problem still persists, try changing

Far from windows, Near windows, etc.

You can store radio stations in the unit's memory. You can preset up to 30 radio stations, 20 for FM and

Presetting radio stations

- **1** Press  $\bigcirc$  **1** to turn on the power of the unit. 2 Press FM/AM 2 repeatedly to select the "FM"
- or "AM" band. 3 Hold down FM/AM 2 until "AUTO" flashes on the display.

**4** Press **DISPLAY/ENTER** 11 to store the station. The stations are stored in memory from lower frequencies to higher ones.

### If a station cannot be preset automatically

You need to preset a station with a weak signal

- 1 Press FM/AM 2 repeatedly to select a band. **2** Tune to the desired station.

## or "AM-xx" flashes on the display. (Example: FM)

4 Press PRESET + or – 5 until the preset

- number for the station you want flashes on cassette
- **5** Press **DISPLAY/ENTER** 11 to store the station. If another station is already assigned to the selected preset number, that station is replaced by the new one

If you want to cancel presetting the station, press STOP (**■**) 9

## The preset radio stations remain in the unit's memory even

- in the following situations -The AC power cord is unplugged
- -The batteries are removed

### Listening to preset radio stations

- 1 Press (1) 1 to turn on the power of the unit. 2 Press FM/AM 2 repeatedly to select the "FM" or "AM" band.
- **3** Press **PRESET** + or **5** to select a stored preset number for the desired radio station.

By repeatedly pressing **DISPLAY/ENTER** 11 while listening to the radio, the radio information changes between showing the preset number and the frequency. The preset number display automatically returns to the frequency display after 2 seconds have elapsed.

## Presetting stations to FAVORITE **RADIO STATIONS buttons**

You can preset up to three favorite stations to the three FAVORITE RADIO STATIONS (-SET) 12 buttons. Assign one FM or AM program for each

- 1 Press FM/AM 2 repeatedly to select the band **2** Tune to the station you want to preset.
- **3** Press and hold the desired **FAVORITE RADIO** STATIONS (-SET) 12 until you hear a beep. The tuned station is preset to the selected button of FAVORITE RADIO STATIONS (-SET) 12 and the same number as that of the button will light up on the display.

(Example: Presetting FM 87.5 MHz to number 1)

To change the preset station Repeat steps 1 to 3 The preset station on the button will be replaced by

## Listening to preset stations with **FAVORITE RADIO STATIONS buttons**

Press the desired FAVORITE RADIO STATIONS (-SET) 12 button.

To prevent the preset from being changed by mistake, do

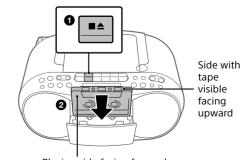

## not hold down the button. If doing so, the preset on the button will be replaced by the currently tuned station. Playing a tape

the new one.

Check the following items before starting

Press **STOP** (■) 9 to stop playback, and then press **PLAY MODE** 10 repeatedly until "PGM" disappears from the display.

### To delete all tracks/files in the current program

Stop playback, and then press **STOP** (**1**) **9**. "noSTEP" appears and you can create a new program, following the procedure "Creating your own program (Program Play).

## Using the Sleep Timer

You can set the unit to turn off automatically after a set time has elapsed.

1 Press SLEEP 13. The default setting ("90") appears and the

"SLEEP" indicator lights up on the display. **2** Press **SLEEP** 13 repeatedly to select the desired setting.

Each time you press the button, the duration (in minutes) changes on the display, and the selected setting is confirmed automatically after

### To cancel the Sleep Timer Press **SLEEP** 13 repeatedly to select "OFF" or turn off

• The "SLEEP" indicator will flash once every 8 seconds

- while the Sleep Timer is activated
- The "SLEEP" indicator will start flashing on the display about 1 minute before the unit turns off.
- You can check the time left until the unit turns off by pressing **SLEEP** 13 again after setting the Sleep Timer. However, be sure not to perform this operation while the "SLEEP" indicator is flashing (flashing starts 1 minute before the unit turns off). If you perform this operation during this time, the Sleep Timer will be canceled instead of displaying the time remaining.
- When the set time has elapsed during a tape function operation (playing/recording/erasing), the "SLEEP" indicator will start flashing but the unit will not turn off. The unit will turn off after the operation ends.
- Be sure to release the or ►► 4 button by pressing
- ■▲ 4 after the unit is turned off when a fast-forward or rewind operation is performed in the tape function. Be sure to turn off the power of the optional component connected to the AUDIO IN jack 15 when using the Sleep

## Connecting optional components

Timer in the audio in function. The Sleep Timer does not

turn off the component power.

You can enjoy the sound from an optional component, such as a TV, portable digital music player, through the speakers of this unit. Be sure to turn off the power of each component before making any connections. For details, refer to the instruction manual of the component to be connected.

- 1 Connect the AUDIO IN jack 15 to the line output jack of the portable digital music player, TV or other component using an audio connection cable (not supplied)
- **2** Turn the connected component on.
- **3** Press **AUDIO IN 8** and start playing sound on the connected component. The sound from the connected component is output from the speakers.

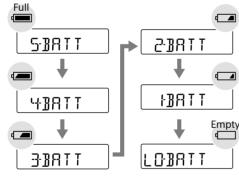

To connect the unit to a TV or video recorder/ player, use an extension cable (not supplied) with a stereo-mini jack on one end and two phono plugs on the other end.

## Checking the remaining battery power

When using the unit on battery power, you can check how much battery power remains.

### Battery levels and remaining battery power

The remaining battery power is displayed in 5 levels as shown below (battery icons are for illustrative purposes only). The higher the number, the more battery power remains

After the "LO-BATT" alert flashes for 8 seconds, the unit will turn off automatically.

To check the battery level, perform the following.

■ When using the CD or FM/AM function Press **DISPLAY/ENTER** 11 repeatedly.

■ When using the tape or audio in function Press **DISPLAY/ENTER** 11 once

## About the battery alert message

When the battery power drops to a certain level, the message "LO-BATT" will flash for 8 seconds and ther the unit power will go off automatically. Replace all the batteries with new ones when this message appears.

If you turn the unit on again without replacing the batteries after "LO-BATT" appears, you may be able to use some function such as the tuner for a short period of time, but the following issues may occur. Replace the batteries with new ones when "LO-BATT" appears.

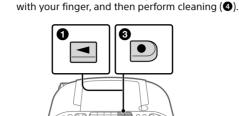

- The unit turns on but then turns off after "LO-BATT" flashes for 8 seconds.
- The unit will not turn on

# Cleaning the tape heads and tape

Failure to clean the tape heads can cause degraded sound quality or inability of the unit to play or record tapes. Clean the capstan, pinch roller, play/recording head, and erase-head after every 10 hours of use using a commercially available cleaning kit. Clean their surfaces as shown below using a cotton swab moistened with cleaning fluid included in the kit.

- To clean the pinch roller, capstan and play/recording head
- Press  $\blacktriangleleft 4 (1)$  and then perform cleaning (4).

### ■ To clean the erase-head Press ● 4 (3) while holding down the lever (2)

## Lever 4 Use a cotton swab moistened with cleaning fluid. Pinch roller Erase-head

Play/recording

## Precautions

Capstan

## Discs that this unit CAN play

- Audio CD (CD-DA\*1 tracks)
- CD-R/CD-RW discs on which CD-DA tracks are recorded in CD-DA format
- CD-R/CD-RW that contains MP3 files and is finalized\*2 correctly.
- <sup>1</sup> CD-DA is the abbreviation for Compact Disc Digital Audio. It is a recording standard used for audio CDs.
- <sup>2</sup> Finalizing is the process to make the CD-R/CD-RW discs playable on the consumer disc player products, and the finalizing can be enabled or disabled as optional settings during disc creation in most recording software.

## Discs that this unit CANNOT play

- CD-R/CD-RW other than those recorded in audio CD format or formats conforming to ISO 9660 Level 1/Level 2 or Joliet
- CD-R/CD-RW of poor recording quality, CD-R/ CD-RW with scratches or that is dirty, or CD-R/ CD-RW recorded using an incompatible recording
- CD-R/CD-RW that is unfinalized or finalized incorrectly
- BD-ROM, BD-R/BD-RE
- DVD-ROM, DVD-R/DVD-RW, DVD+R/DVD+RW, DVD-RAM

## Notes on discs

- Clean the CD with a cleaning cloth if the disc is dirty. Wipe the disc from the center out. If there are scratches, dirt or fingerprints on the disc, a tracking error may occur.
- Do not use solvents such as benzine, thinner, commercially available cleaners or anti-static spray intended for vinyl I Ps
- Do not expose the CD to direct sunlight or heat sources such as hot air ducts, or leave it in a car parked in direct sunlight as there can be a considerable rise in temperature inside the car.
- Do not stick paper or a sticker on the CD, or scratch the surface of the CD.
- After playing, store the CD in its case.

### Note on DualDiscs • A DualDisc is a two sided disc product which

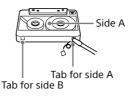

mates DVD recorded material on one side with digital audio material on the other side. However. since the audio material side does not conform to the Compact Disc (CD) standard, playback on this product is not quaranteed.

### Music discs encoded with copyright protection technologies

• This product is designed to playback discs that conform to the Compact Disc (CD) standard. Recently, various music discs encoded with copyright protection technologies are marketed by some record companies. Please be aware that among those discs, there are some that do not conform to the CD standard and may not be playable by this product.

### Notes on cassettes

• Remove the overwrite protection tab from side A or B to prevent accidental recording. If you want to reuse the tape for recording, cover the broken tab using adhesive tape

• The use of a cassette tape with more than 90 minutes of play time is not recommended except for long, continuous recording or playback.

## On safety

- As the laser beam used in the CD player section is harmful to eyes, do not attempt to disassemble the casing. Refer servicing to qualified personnel
- Should any solid object or liquid fall into the unit, unplug the unit, and have it checked by qualified personnel before operating it any further.
- Discs with non-standard shapes (e.g., heart, square, star) cannot be played on this unit. Attempting to do so may damage the unit. Do not use such discs.

### On power sources

- For AC operation, use the supplied AC power cord; do not use any other cord.
- Unplug the unit from the wall outlet if it is not to be used for an extended period of time.
- When not using the batteries, remove them to avoid damage that can be caused by battery leakage or corrosion

### On placement

- Do not leave the unit in a location near heat sources, in a place subject to direct sunlight. excessive dust or mechanical shock, or in a car subject to the direct rays of the sun.
- Do not place the unit near the appliances that generate heat, such as lighting fixtures or heaters. The heat from those appliances may deform the enclosure and cause the system to malfunction.
- Do not place the unit on an inclined or unstable surface.
- Do not place anything within 10 mm of the rear of the cabinet. The ventilation openings must be unobstructed for the unit to operate properly and prolong the life of its components.
- Since a strong magnet is used for the speakers. keep personal credit cards using magnetic coding or spring-wound watches away from the unit to prevent possible damage from the magnet.

### On operation

• If the unit is brought directly from a cold to a warm location, or is placed in a very damp room, moisture may condense on the lens inside the CD player section. Should this occur, the unit will not operate properly. In this case, remove the CD and wait about an hour for the moisture to evaporate.

- On handling the unit • Do not leave the CD compartment open to avoid dust and debris contamination.
- When carrying the unit, hold it by the handle 16 to prevent it from dropping.

## On cleaning the cabinet

• Clean the cabinet, panel and controls using a soft cloth slightly moistened with a mild detergent solution. Do not use any type of abrasive pad, scouring powder, or solvent, such as alcohol or benzine

If you have any questions or problems concerning your unit, consult your nearest Sony dealer.

## Troubleshooting

## General

### "LO-BATT" flashing message appears on the display. • Replace all the batteries with new ones. This

message appears when using the unit on batteries and the battery power drops to a certain
