WARNING

To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture

To reduce the risk of fire, do not cover the ventilation opening of the appliance with newspapers, tablecloths, curtains, etc. Do not expose the appliance to naked flame sources (for example lighted candles).

To reduce the risk of fire or electric shock, do not expose this apparatus to dripping or splashing, and do not place objects filled with liquids, such as vases, on the apparatus

As the main plug is used to disconnect the unit from the mains, connect the unit to an easily accessible AC outlet. Should you notice an abnormality in the unit, disconnect the main plug from the AC outlet immediately

The unit is not disconnected from the AC power source (mains) as long as it is connected to the wall outlet, even if the unit itself has been turned off.

Do not install the appliance in a confined space such as a bookcase or built-in cabinet.

Excessive sound pressure from earphones and headphones can cause hearing loss Do not expose the batteries (battery pack or

batteries installed) to excessive heat such as sunshine, fire or the like for a long time

The nameplate is located on the bottom exterior.

Owner's Record

The model and serial numbers are located on the bottom of the unit. Record these numbers in the space provided below. Refer to them whenever you call upon your Sony dealer regarding this product.

Model No. ZS-RS60BT Serial No.

Important Safety Instructions

- 1) Read these instructions. 2) Keep these instructions
- Heed all warnings. 4) Follow all instructions
- 5) Do not use this apparatus near water.
- 6) Clean only with dry cloth. 7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- 8) Do not install near any heat sources such as

The following FCC/IC statement applies only to the version of this model manufactured for sale in the USA and Canada. Other versions may not comply with FCC/IC technical regulations.

NOTE:

Canada, including in the province of Quebec. This equipment has been tested and found to comply with the limits for a Class B digital device,

pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this

equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna.

 Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a

circuit different from that to which the receiver is connected Consult the dealer or an experienced radio/TV

technician for help This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CAUTION

You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment.

This equipment must not be co-located or operated in conjunction with any other antenna or transmitter. This equipment complies with FCC/IC radiation

exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines in Supplement C to OET65 and RSS-102 of the IC radio frequency (RF) Exposure

This equipment has very low levels of RF energy that it deemed to comply without maximum permissive exposure evaluation (MPE). But it is desirable that it should be installed and operated keeping the radiator at least 20 cm or more away from person's body (excluding extremities: hands,

wrists, feet and ankles). This symbol is intended to alert the user to the pres "dangerous voltage" within the 3 Press ►II 5 to start playback. product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons. This symbol is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance. This graphical symbol is located on the bottom of

Transferring music from a disc to a USB device

You can transfer a whole disc (CD SYNC transfer) or the currently playing track or file (REC1 transfer) to a USB device (digital music player or USB storage media, etc.). When transferring from a CD, the tracks are transferred as MP3 files with a sampling frequency

of 44.1 kHz at 128 kbps (CBR). When transferring from an MP3/WMA disc, MP3/WMA files are transferred with the same bit rate as the original MP3/WMA files. **1** Connect the USB device to the $\frac{1}{2}$ (USB) port $\frac{17}{17}$.

2 Press CD 18 to turn on the CD function. **3** Place the disc you want to transfer in the CD compartment.

CD SYNC transfer To transfer a whole disc

Proceed to step 4. To transfer MP3/WMA files in a specific folder

Set the play mode to folder play () or folder repeat play (\mathbf{G} , $\mathbf{\Box}$), and then press $\mathbf{\Box}$ + or $-\mathbf{7}$

repeatedly to select the folder you want. To transfer only your favorite tracks/files Perform step 1 to 5 of "Creating your own program (Program Play)" on the back page.

REC1 transfer

To transfer a single track/file Select and start playback of the track/file you want to transfer

4 Press REC 9. "REC" flashes on the display and the unit starts calculating the amount of free space on the USB device.

ZANC

If "LOW ***M" appears on the display, there is not sufficient space on the device. To cancel the transferring, press 🔳 14. To continue transferring anyway, proceed to step 5.

5 Press ENTER 12 Transferring starts. When transferring is completed, playback stops automatically (CD SYNC transfer) or proceeds to the next track/file (REC1 transfer).

To stop transferring

below the "ROOT" folder.

following rules.

Press 🔳 14. When the transferring source is a CD-DA track, the audio file is generated up to the point the transferring was stopped. When the source is an MP3 or WMA file, the file that is currently being transferred is not generated.

Folder and file generation rules When first transferring to a USB device, a "MUSIC"

apparatus (including amplifiers) that produce

9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.

10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from

the apparatus. 11) Only use attachments/accessories specified by

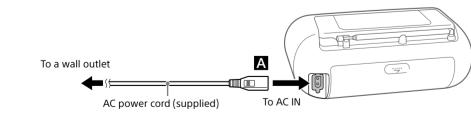

the manufacturer. 12) Use only with the cart, stand, tripod, bracket, or table specified by the

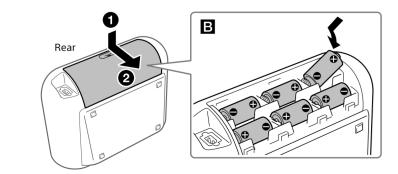

manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/ apparatus combination to avoid injury from tip-over

13) Unplug this apparatus during lightning storms or when unused for long periods of time. 14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as powersupply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Power Sources

Connect the AC power cord A, or insert six R14 (size C) batteries (not supplied) into the battery compartment B.

Notes

• When using the radio on batteries and the battery power drops to a certain level, the OPR/BATT indicator 19 dims or the power of the radio may go off during playback. If this happens, replace all the batteries with new ones. Even after the OPR/BATT indicator 1 becomes dim, you can use the radio function for some time, although you cannot use the CD player. Before you replace the batteries, be sure to remove any CD and disconnect any USB devices or optional components from the unit • To use the unit on batteries, disconnect the AC power cord from the unit and the wall outlet. • In standby mode with the AC power cord connected, "STANDBY" appears on the display.

When locating a point while paused, press 📲 5 to start playback after the desired point is found. When playing a VBR MP3/WMA/AAC file, playback may restart from a different point. When removing a USB device, hold down 🔳 1 until "NO DEV" appears, and then turn off the unit or switch to other functions beforehand. Removing the USB device without performing these steps may corrupt the data on the USB device or damage the device itself. Example of folder structure and playing order The playing order of the folders and files is as follows. However, the playing order may differ from the original order on the USB device, depending on the recording method used. USB device Folde

Notes on the USB device

• It may take a long time before playback starts when: - the folder structure is complex. - the USB device is close to capacity. • Do not save non-MP3/WMA/AAC files or unnecessary folders to a USB device that contains MP3/WMA/AAC files. • During playback, audio files other than MP3, WMA and AAC files are skipped even if those files are included in a

• The audio formats supported by this unit are as follows: MP3: file extension ".mp3" - WMA: file extension ".wma - AAC: file extension ".m4a," ".3gp" and ".mp4" Note that even if the file name has the correct file extension but the actual file was created in a different audio format, this unit may produce noise or may malfunction.

- MP3 PRO format is not supported.
- WMA files encoded in WMA DRM, WMA Lossless and WMA PRO formats cannot be played back.
- AAC files encoded in copyright-protected AAC format cannot be played back.
- This unit supports the AAC-LC (AAC Low Complexity) profile.
- This unit cannot play audio files on a USB device in the following cases
- When the total number of audio files in a single folder exceeds 999.
- When the total number of audio files on a single USB device exceeds 5,000.
- When the total number of folders on a single USB device exceeds 256 (including the "ROOT" folder). - When the directory level (folder depths) exceeds 8
- (including the "ROOT" folder). These numbers may vary depending on the file and folder
- structure. Compatibility with all encoding/writing software is not guaranteed. If audio files on the USB device were originally encoded with incompatible software, those files may produce noise or interrupted sound, or may not be played back at all.

Playing tracks/files repeatedly (Repeat Play)

You can set the unit to repeatedly play CD-DA tracks on an audio CD, MP3/WMA files on a CD-R/CD-RW disc, or MP3/WMA/AAC files on a USB device in normal and program play modes.

4 Press ENTER 12 The track/file is programmed. The program step number appears, followed by the total playing time (Example: audio CD)

STEP

Step number

Last programmed track number

Total playing time * "--:--" appears when programming an MP3/WMA disc/USB device or when the total playing time is longer than 100 minutes 5 Repeat steps 3 and 4 to program additional

tracks/files.

6 Press ►II 5 to start Program Play. To play the same program again, press ►II 5. Note that the created program is cleared in the following cases: - When you open the CD compartment. - When you connect another USB device. – When you turn off the power of the unit in the CD function

If you try to program 26 tracks/files or more, "FULL" flashes on the display

To display programmed track/file information After creating your own program, you can check

information about programmed tracks/files. Press DISPLAY 6 repeatedly and the display changes as follows

Total number of steps ↔ Last programmed track/ file number and the total playing time* * "--:--" appears for MP3/WMA discs and USB devices.

To cancel Program Play Press **1**4 to stop playback, and then press PLAY MODE 13 repeatedly until "PGM" disappears from the display.

To delete all tracks/files in the current

program Stop playback, and then press 🔳 1 . "NO STEP"

appears and you can create a new program following the procedure "Creating your own program (Program Play).

Presetting radio stations

You can store radio stations in the unit's memory. You can preset up to 30 radio stations, 20 for FM and

1 Press FM/AM 18 repeatedly to turn on the radio function and select the band "FM" or "AM. 2 Hold down FM/AM 18 until "AUTO" flashes on

the display -RUTO

3 Press ENTER **12** to store the station. The stations are stored in memory from lower

frequencies to higher ones. If a station cannot be preset

automatically You need to preset a station with a weak signal

flashes on the display.

(Example: FM)

manually. 1 Press FM/AM 18 repeatedly to select a band. **2** Tune to the desired station. **3** Hold down ENTER 12 until "FM-xx" or "AM-xx"

Precautions

this unit.

• Compliance with USB 2.0 (Full Speed)

Discs that this unit CAN play Audio CD (CD-DA*1 tracks) • CD-R/CD-RW that contains MP3/WMA files and is finalized*2 correctly.

^{*1} CD-DA is the abbreviation for Compact Disc Digital Audio. It is a recording standard used for audio CDs. ² Finalizing is the process to make the CD-R/CD-RW discs playable on the consumer disc player products, and the finalizing can be enabled or disabled as optional settings during disc creation in most recording software.

Discs that this unit CANNOT play

 CD-R/CD-RW other than those recorded in audio CD format or formats conforming to ISO 9660 Level 1/Level 2 or Joliet • CD-R/CD-RW of poor recording quality, CD-R/ CD-RW with scratches or that is dirty, or CD-R/ CD-RW recorded using an incompatible recording device

• CD-R/CD-RW that is unfinalized or finalized incorrectly

Notes on discs

 Clean the CD with a cleaning cloth if the disc is dirty. Wipe the disc from the center out. If there are scratches, dirt or fingerprints on the disc, a tracking error may occur. • Do not use solvents such as benzine, thinner, commercially available cleaners or anti-static spray intended for vinyl LPs. • Do not expose the CD to direct sunlight or heat sources such as hot air ducts, or leave it in a car parked in direct sunlight as there can be a considerable rise in temperature inside the car. • Do not stick paper or a sticker on the CD, or scratch the surface of the CD. After playing, store the CD in its case.

Note on DualDiscs

• A DualDisc is a two sided disc product which mates DVD recorded material on one side with digital audio material on the other side. However, since the audio material side does not conform to the Compact Disc (CD) standard playback on this product is not guaranteed.

Music discs encoded with copyright protection technologies

• This product is designed to playback discs that conform to the Compact Disc (CD) standard. Recently, various music discs encoded with copyright protection technologies are marketed by some record companies. Please be aware that among those discs, there are some that do not conform to the CD standard and may not be playable by this product.

On safety

• As the laser beam used in the CD player section is harmful to eyes, do not attempt to disassemble the casing. Refer servicing to qualified personnel • Should any solid object or liquid fall into the unit, unplug the unit, and have it checked by qualified personnel before operating it any further. Discs with non-standard shapes (e.g., heart, square, star) cannot be played on this unit. Attempting to do so may damage the unit. Do not use such discs.

On power sources

• For AC operation, use the supplied AC power cord; do not use any other cord. • Unplug the unit from the wall outlet if it is not to

be used for an extended period of time. • When not using the batteries, remove them to avoid damage that can be caused by battery leakage or corrosion

On placement

On operation

On handling the unit

dust and debris contamination.

On cleaning the cabinet

benzine.

• Do not leave the unit in a location near heat sources, in a place subject to direct sunlight. excessive dust or mechanical shock, or in a car subject to the direct rays of the sun Do not place the unit on an inclined or unstable surface • Do not place anything within 10 mm (13/32 in) of the rear of the cabinet. The ventilation openings

must be unobstructed for the unit to operate

prevent possible damage from the magnet.

• If the unit is brought directly from a cold to a

warm location, or is placed in a very damp room

moisture may condense on the lens inside the CD

player section. Should this occur, the unit will not

operate properly. In this case, remove the CD and

wait about an hour for the moisture to evaporate.

• Do not leave the CD compartment open to avoid

• Clean the cabinet, panel and controls using a soft

cloth slightly moistened with a mild detergent

solution. Do not use any type of abrasive pad,

scouring powder, or solvent, such as alcohol or

If you have any questions or problems concerning

vour unit, consult vour nearest Sonv dealer.

Troubleshooting

General

The power does not turn on. • Make sure the AC power cord is connected to the wall outlet securely. • Make sure the connector of AC power cord is inserted into the AC IN jack securely • Check if the batteries are inserted correctly,

matching the polarities. Replace all the batteries with new ones when the OPR/BATT indicator 19 dims.

There is no sound.

• Make sure the appropriate function is selected for the music or sound source you want to listen to. • Unplug the headphones when listening through speakers.

The sound is noisy.

• Is someone using a mobile phone or other equipment emitting radio waves near the unit? If so, move the unit and the BLUETOOTH device away from such devices. Devices such as mobile phones, etc., can affect BLUETOOTH communication.

A small humming noise is heard from the radio.

• This is not a malfunction. You may hear a small humming noise from the radio depending on the status of the power supply.

"NOT IN USED" appears. • You pressed an invalid button.

CD/MP3/WMA player

The CD player does not play even when a CD is in place. • Place the CD with the label side up. Clean the CD. • Take out the CD and leave the CD compartment

open for about an hour to dry moisture condensation • The CD-R/CD-RW is blank or unfinalized. • There are no playable MP3/WMA files on the disc.

• There is a problem with the quality of the CD-R/ CD-RW, recording device or application software. Replace all the batteries with new ones when the OPR/BATT indicator 19 dims.

"NO CD" appears when the disc is loaded. • No disc is set in the CD compartment. Set a disc.

• The CD may have a reading problem. Replace the • The CD may be placed upside down. Place the disc with the label side up. • An unplayable disc (DVD, BD, etc.) is loaded.

Replace the disc. "NO TRACK" appears on the display when

the disc is loaded. • No audio files recorded in supported formats, or a file to be played back has an unsupported file extension

"DISC ERR" appears when the disc is loaded.

The CD may be dirty. Clean the disc.

• The CD may have scratches. Replace the disc. • The CD may have a reading problem. Replace the

• A blank disc may be set in the CD compartment.

The sound drops out.

 Reduce the volume • Clean the CD, or replace it if the CD is badly damaged. Place the unit in a location free from vibrations. • Clean the lens with a commercially available blower. The sound may drop out or noise may be heard when using a poor quality CD-R/CD-RW or if there

is a problem with the recording device or application software.

Starting playback takes more time than usual.

• The following discs take a longer time to start

1 Press CD 18 or USB 18 to turn on the CD or USB function.

2 Proceed as follows.

To repeat	Do this
A single track/ file	 Press PLAY MODE 3 repeatedly until "⊊ 1" appears Press I ◄ or ►► 7 to select a track/file that you want to repeat. Press ►I 5.
All tracks/files	 Press PLAY MODE 13 repeatedly until "⊊" appears. Press ►II 5.
A selected folder on an MP3/WMA disc or USB device	 Press PLAY MODE 13 repeatedly until "□" and "□" appear. Select a folder by pressing □ or - 7. Press ►11 5.
Programmed tracks/files	 Program tracks/files (see "Creating your own program (Program Play)"). Press PLAY MODE 13 until "PGM" and "⊊" appear on the display. Press ►II 5.

To cancel Repeat Play Press 🔳 1 to stop playback, and then press PLAY MODE 13 repeatedly until "🖛" (or "🖛 1") disappears from the display.

Playing tracks/files in random order (Shuffle Play)

You can set the unit to play CD-DA tracks on an audio CD, MP3/WMA files on a CD-R/CD-RW disc or

MP3/WMA/AAC files on a USB device in random order 1 Press CD 18 or USB 18 to turn on the CD or

USB function 2 Press PLAY MODE 13 repeatedly until "

appears on the display 3 Press ►II 5 to start Shuffle Play.

To cancel Shuffle Play Press **1**4 to stop playback, and then press PLAY MODE 13 repeatedly until " display.

During Shuffle Play, you cannot select the previous track/file by pressing 🖊 🔽

Creating your own program (Program Play)

You can arrange the playing order of up to 25 tracks/files on a disc/USB device.

1 Press CD 18 or USB 18 to turn on the CD or USB function 2 Press PLAY MODE 13 repeatedly until "PGM"

appears on the display. **3** Press I or ►► **7** to select a track/file. When you want to specify a folder that contains

MP3/WMA/AAC files, press \Box + or -7 first to select a folder, and then press I or ►► 7 to select a file.

FMTØ

4 Press PRESET + or -7 until the preset number for the station you want flashes on the display. **5** Press ENTER **1**² to store the station.

If another station is already assigned to the selected preset number, that station is replaced by the new one.

The preset radio stations remain in the unit's memory even in the following situations. -The AC power cord is unplugged. The batteries are removed

Listening to preset radio stations

1 Press FM/AM 18 repeatedly to turn on the radio function and select the band "FM" or "AM **2** Press PRESET + or -7 to select a stored preset number for the desired radio station.

Using the Sleep Timer

You can set the unit to turn off automatically after a set time has elapsed.

> 1 Press SLEEP 8. The default setting ("90") appears and the "SLEEP" indicator lights up on the display. 2 Press SLEEP 8 repeatedly to select the

desired setting. $90 \rightarrow 60 \rightarrow 30 \rightarrow 15$ OFF ←

Each time you press the button, the duration (in minutes) changes on the display, and the selected setting is confirmed automatically after about 4 seconds

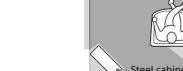

You can check the time left until the unit turns off by pressing SLEEP 8 again after setting the sleep timer.

Connecting optional components

You can enjoy the sound from an optional component, such as a portable digital music player, through the speakers of this unit. Be sure to turn off the power of each component before making any connections. For details, refer to the instruction manual of the

component to be connected. **1** Connect the AUDIO IN jack 15 to the line output jack of the portable digital music player or other component using an audio connection cable (not supplied). **2** Turn the connected component on. **3** Press AUDIO IN 18 and start playing sound on the connected component. The sound from the connected component is output from the speakers.

To connect the unit to a TV or video recorder/ player, use an extension cable (not supplied) with a stereo-mini jack on one end and two phono plugs on the other end.

- Steel cabinet Optimal performance

Interference from other devices

Limited performance

Because BLUETOOTH devices and wireless LAN (IEEE802.11b/g/n) use the same frequency, microwave interference may occur and resulting in communication speed deterioration, noise, or invalid connection if the unit is used near a wireless LAN device. In such a case, perform the following. – Use the unit at least 10 m (33 feet) away from the wireless LAN device.

- If the unit is used within 10 m (33 feet) of a wireless LAN device, turn off the wireless LAN device.

– Use the BLUETOOTH device as close to the unit as possible.

Interference to other devices

Microwaves emitting from a BLUETOOTH device may affect the operation of electronic medical devices. Turn off the unit and other BLUETOOTH devices in the following locations, as it may cause an accident - where inflammable gas is present, in a hospital, train, airplane, or a gas station - near automatic doors or a fire alarm

Notes • To be able to use the BLUETOOTH function, the BLUETOOTH device to be connected requires the same

profile as the unit's. Note also that even if the same profile exists, devices may vary in function depending on their specifications. • Due to the characteristic of BLUETOOTH wireless technology, the sound played on the unit is slightly delayed from the sound played on the BLUETOOTH device during listening to the music.

• This unit supports security capabilities that comply with the BLUETOOTH standard to provide a secure connectio when the BLUETOOTH wireless technology is used, but security may not be enough depending on the setting. Be careful when communicating using BLUETOOTH wireless technology.

• We do not take any responsibility for the leakage of information during BLUETOOTH communication • A device featuring the BLUETOOTH function is required to conform to the BLUETOOTH standard specified by Bluetooth SIG, and be authenticated. Even if the connected device conforms to the above mentioned BLUETOOTH standard, some devices may not be

connected or work correctly, depending on the features or specifications of the device. Noise or sound skips may occur depending on the BLUETOOTH device connected with the unit, the communication environment or the usage environmen

playback. properly and prolong the life of its components. - A disc recorded with a complicated tree • Since a strong magnet is used for the speakers, structure keep personal credit cards using magnetic coding A disc that has many folders or non-MP3/WMA or spring-wound watches away from the unit to files.

USB device

The USB device does not work properly. • If you connect an incompatible USB device, the following problems may occur.

> The USB device is not recognized. - File or folder names are not displayed on this unit - Playback is not possible. – The sound skips. - There is noise. - The sound output is distorted.

"OVER CURRENT" appears and the unit

turns off automatically • An abnormal level has been detected in the electrical current from the $\frac{1}{2}$ (USB) port 17. In this case, remove the USB device from the $rac{\Psi}{}$ (USB) port 17 and reconnect the USB device, and then turn on the unit again. If this problem persists after turning on the power of the unit, contact your nearest Sony dealer

There is no sound.

• The USB device may be connected incorrectly. Turn off the unit and reconnect the USB device. Then turn on the unit.

There is noise, skipping, or distorted sound.

• Turn off the unit and reconnect the USB device. Then turn on the unit again. • The music data itself contains noise, or the sound is distorted. Noise may have entered during the creation of audio files. Try re-creating audio files and use them to play on this unit

The USB device cannot be connected to the

∛ (USB) port 17. • The connector on the USB device or the USB cable is being inserted backwards. Insert it to the \dot{Y} (USB) port 17 in the correct direction.

"READING" is displayed for an extended time, or it takes a long time before playback starts.

• The reading process can take a long time in the following cases: - There are many folders or files on the USB device. - The file structure is complex. - The memory is almost full. The internal memory is fragmented. To avoid the above problems, we recommend that you adhere to the following guidelines: - Keep the total number of folders on a USB device to 100 or less.

- Keep the total number of files per folder to 100 or less.

Erroneous display

• The data stored on the USB device may be corrupted. Send the music data to the USB device again. • This unit can display only numbers and letters of the alphabet. Other characters will not be displayed correctly.

"REC ERROR" appears.

• An error occurred during transferring. Turn off the unit and remove the USB device from the unit. Then check the following: - Check the remaining storage space on the USB device. If there is insufficient space for the transferring, delete any unnecessary files or folders. - Check that the data to be transferred is not corrupted. - Check that the file format to be transferred is compatible with the unit If the message still persists, contact your nearest Sony dealer

• Relaunch "NFC Easy Connect" and move the smartphone slowly over the N mark 20. Check that the smartphone meets the compatibility requirements (See "Compatible smartphones").
