English

This guide is intended to guide you through the basic functions of this unit. For details, please refer to the Operation manual stored on the website. <https://www.pioneerelectronics.com/PUSA/Support>

Before You Start

Thank you for purchasing this PIONEER product.
To ensure your use, please read through this guide before using this product. It is especially important that you read and observe **WARNINGS** and **CAUTIONS** in this guide. Please keep the guide in a safe and accessible place for future reference.

FCC ID: FWK9C
MODEL NO.: SPH-10BT
IC: 4250A-C95

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSSs. Operation is subject to the following two conditions: (1) this equipment may not cause interference; and (2) this equipment must accept any interference, including interference that may cause undesired operation of the device.

This equipment complies with FCC/IC radiotelephone exposure limits set forth for an uncontrolled environment and meets FCC and IC radio frequency (RF) Exposure Guidelines and RSS-102 of the ISED radio frequency exposure rules. This equipment generates, uses and can radiate RF energy. It has been tested and found to comply with maximum permissible exposure limits for general population (excluding fetus) and operating the radiator at least 20 cm or more from person's body (excluding extremes: hands, feet, and ankles).

Information to User - Alteration or modifications carried out without appropriate authorization may invalidate the user's right to operate the equipment.

The Bluetooth antenna cannot be removed (or replaced) by user.

Note - This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

CAN ICES-3/B/NMB-3 B
The Safety of Your Ears Is in Your Hands

Get the most out of your Pioneer car stereo by listening comfortably and clearly, without distortion.

Once you've established a comfortable sound level, that's what sounds "normal".

Over time, your hearing adapts to higher volumes of sound, so what sounds "normal" can actually be loud and harmful to your hearing. Guard against this by setting your equipment at a safe level.

ESTABLISH A SAFE LEVEL

- Set your volume control at a low setting.

- Turn the volume down if it starts to sound distorted or unclearly and clearly, without distortion.

- Once you've established a comfortable sound level, that's what sounds "normal".

BE SURE TO OBSERVE THE FOLLOWING GUIDELINES:

- Do not turn up the volume so high that you can't hear what's around you.
- Avoid listening to high volume levels for long periods of time in potentially hazardous situations.
- Do not use headphones while operating a motorized vehicle; the use of headphones may create a traffic hazard and is illegal in many areas.

A WARNING

Do not attempt to install this product by yourself. Installation or servicing of this product by persons without training and experience in electronic equipment and automotive accessories may be dangerous and could expose you to the risk of electric shock, injury or other hazards.

- Never attempt to disassemble the unit or remove parts from the unit. Doing so may damage the unit, void the warranty, and expose you to the risk of electric shock, injury or other hazards.
