 - Accessories include food probe, smokeless grill tray, and more

DIMENSIONS

Height	27 ³ / ₁₆ "
Width	29 ¹⁵ / ₁₆ "
Depth	23 ¹⁵ / ₁₆ "

FEATURES & BENEFITS

- Cook with confidence**
Our touchscreen interface provides an intuitive guided cooking experience that helps deliver perfect results, whether you've been cooking all your life or just starting out. Cook with a favorite method, a hero ingredient, or a go-to cooking function or recipe.
- Generous capacity**
With its 4.1 cu ft total capacity, you can create several perfectly

cooked dishes at once using multiple shelves.

- Multi-function flexibility**
The cooking functions have each been tailored, tested, tweaked and perfected to ensure that no matter what you're cooking, you've got the right heat to match. A food probe precisely monitors cooking in real time, giving you complete control.
- Exceptional performance**
AeroTech circulates heat evenly for a consistent temperature throughout the cavity, helping you ensure perfect results even when cooking on multiple shelves.

- Self-cleaning**
Our self-clean technology breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth. The enamel coated side racks don't need to be removed when using this function.
- Design freedom**
Available in an elegant black or a stylish black with stainless steel, this oven is designed to fit seamlessly into your kitchen. Premium materials and detailing to support a cohesive, considered kitchen design.
