- Netflix, Apple TV+, Disney+, Prime Video, LG Channels
- Google Assistant & Alexa Built-in, Apple Airplay 2/Homekit

DESCRIPTION

Empower entertainment with LG UHD TV

LG's UHD TV maximizes your entertainment and gaming. From 43" to 75", real 4K displays push your picture performance. LG UHD TV's processor enhances colour, contrast, clarity and detail, while AI enhances sound and gives control over your connected home.

KEY FEATURES

Real 4K Display

It's a 4K picture that defines quality. Over 8.3 million active pixels of 4K deliver 4 times the resolution of full HD.

webOS® 6.0 & ThinQ® AI w/ Magic Remote

The newly designed home screen shows personalized content suggestions, gives you easier access to favourites, and lets you control connected devices all in one place. The redesigned Magic Remote has an ergonomic design that's easy to hold, and its point and scroll system allows faster searching. Built-in AI provides easy access to services, while hotkeys for major content providers give you shortcuts to all your favourites.

Active HDR

Automatically elevate the beauty of your favourite scenes. Active HDR supports a wide range of formats for scene-by-scene picture adjustment, including HDR10 and HLG.

Netflix, Apple TV+, Disney+, Prime Video, LG Channels

There's no stopping your entertainment. LG's smart webOS® features the latest streaming apps like Disney+, Prime Video and the Apple TV app, and favourites like Netflix and LG Channels. It's simple to find top shows, up-and-comers and get personalized content recommendations. And access it all with ease using the LG Magic Remote.

Google Assistant & Alexa Built-in, Apple Airplay 2/Homekit

The Google Assistant¹ and Amazon Alexa² is as close as your TV. No need for an extra device. Just ask your TV for music, weather, news, or conveniently control your connected home and smart devices. You can also cast entertainment from Apple devices to your TV using Airplay 2³, including Apple's vast library of Dolby Vision™ content. Just use your Apple devices to configure, customize and control your smart home by using HomeKit.
