

Klipsch®

T4 True Wireless

Product Code = T4TW

Available NOW

Look & Feel vs. T3:

- Addition of Copper ring
- Updated script logo
- Upgraded acoustics
- Universal fit with Klipsch True Comfort Patented Ear Tips (3 sizes)
- Sport ear wings available in box

Charging Case:

- Upgraded to Type-C charging
- Faster charging speeds for the case with quick charge technology
- Exterior Dot LED to show battery power remaining in the charging case
- Green = 51% - 100%
- Yellow = 21% - 50%
- Red = 0% - 20%

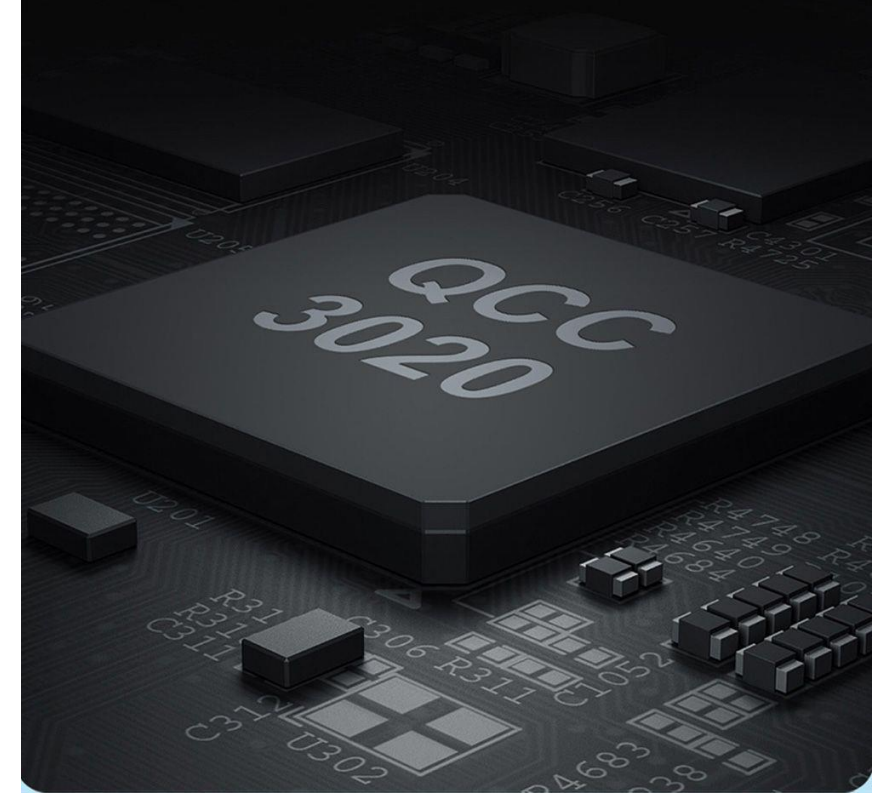

Qualcomm Chipset:

- Using the latest Qualcomm chipset technology the Klipsch T4's have the most advanced Connectivity and Signal available on the market.
- The new chipset also produces industry leading low latency performance for Gamers and Content Viewing.

Qualcomm QCC3020 chip with Bluetooth 5.0 Technology

Adapting Qualcomm QCC3020 Bluetooth 5.0 chip, it improves faster connecting, larger data capacity and lower battery consumption. Meanwhile, the Bluetooth 5.0 tech has better compatibility and anti-interference ability, which can enhance the WiFi and 4G signal transmission rate.

Wireless Charging Pad:

- T4TW will include a Klipsch Qi Wireless Charger in the box.
- This will allow the user to take full advantage of the wirelessly charging case
- The T4's are the first and only branded True Wireless in Canada to include a wireless charging pad with the earbuds.
