

## Wireless Speaker

### Enceinte sans fil

### Altavoz inalámbrico

SRS-XB31

©2018 Sony Corporation  
Printed in China  
http://www.sony.net/

#### English

#### Wireless Speaker

Before operating the system, please read this guide thoroughly and retain it for future reference.

#### Owner's Record

The serial number is located inside of the cap on the rear side of the product.  
Record the serial number in the space provided below. Refer to them whenever you call upon your Sony dealer regarding this product.

Model No. SRS-XB31

Serial No. \_\_\_\_\_

#### WARNING

To reduce the risk of fire, do not cover the ventilation opening of the appliance with newspapers, tablecloths, curtains, etc.  
Do not expose the appliance to naked flame sources (for example, lighted candles).  
Do not install the appliance in a confined space, such as a bookcase or built-in cabinet.  
Do not expose the batteries (battery pack or batteries installed) to excessive heat such as sunshine, fire or the like for a long time.

#### CAUTION

You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment.

#### For customers in the USA

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

**NOTE:**  
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment should be installed and operated keeping the radiator at least 20 cm (7 7/8 in) or more away from person's body.

This equipment must not be co-located or operated in conjunction with any other antenna or transmitter.

#### For customers in Canada

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference, and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

#### Important Safety Instructions

- 1) Read these instructions.
- 2) Keep these instructions.
- 3) Heed all warnings.
- 4) Follow all instructions.
- 5) Clean only with dry cloth.
- 6) Do not block any ventilation openings.
- 7) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 8) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 9) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 10) Only use attachments/accessories specified by the manufacturer.
- 11) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, caution when moving the cart/apparatus combination to avoid injury from tip-over.

- 12) Unplug this apparatus during lightning storms or when unused for long periods of time.
- 13) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

If your skin touches this product for a long time when the power is on, it may cause a low temperature injury.

#### Precautions

- The nameplate and important information concerning safety are located inside of the cap on the rear side of the system.

#### On placement

- Do not set the system in an inclined position.
- Do not leave the system in a location near heat sources, or in a place subject to direct sunlight, excessive dust, or mechanical shock.
- Do not use or leave the system in a car.
- Do not use the system in a sauna.

#### About the Party Booster function

If the system hits a person or thing, it may cause an accident, injury or malfunction. When using the Party Booster function, notice the following:

- Be sure to disconnect the micro-USB cable, etc. from the system.
- Be sure to close the cap when using the system.
- When using the function, hold firmly and do not shake the system violently so that you do not throw or drop the system from your hand.
- Before using the function, make sure that you have secured sufficient space around the system.
- Do not hit the system with a tool.
- Do not use the function while you are driving or walking.
- Keep 20 cm (7 7/8 in) or more away from the face and eyes while in use.
- Avoid using the function for a long time. Take breaks regularly.
- When using the function, if you get tired, feel uncomfortable or experience pain somewhere in your body, stop using the function immediately.

**Others**

- Do not use or leave the system in an extremely cold or hot environment (temperature outside the range of 5 °C - 35 °C (41 °F - 95 °F)). If the system is used or left in outside the above range, the system may automatically stop to protect internal circuitry.

- At high temperature, the charging may stop or the volume may reduce to protect the battery.
- Even if you do not intend to use the system for a long time, charge the battery to its full capacity once every 6 months to maintain its performance.

#### RECYCLING RECHARGEABLE BATTERIES

Rechargeable batteries are recyclable.  
You can help preserve our environment by returning your used rechargeable batteries to the collection and recycling location nearest you.

For more information regarding recycling of rechargeable batteries, visit  
[www.sony.com/electronics/eco/environmental-management](http://www.sony.com/electronics/eco/environmental-management)

Caution: Do not handle damaged or leaking rechargeable batteries.

4-734-039-13(1)

#### About the Voice Guidance

**IMPORTANT: THE SOUND GUIDANCE IS AVAILABLE IN THIS PRODUCT ONLY IN ENGLISH**

- Depending on the status of the system, the voice guidance outputs from the speaker as follows.
- When setting the system to the pairing mode; "Bluetooth pairing"
  - When pressing the BATT (battery) button to check the battery power during the system is turned on; "Battery fully charged/Battery about 70%/Battery about 50%/Battery about 20%/Please charge"
  - When the battery power is low; "Please charge"
  - When the settings are completed for the Speaker Add function; "Double mode"
  - When pressing and holding the ADD (Speaker Add) button during the Speaker Add function; "Left/Right/Double mode"
- On Copyrights**
- Android, Google Play and other related marks and logos are trademarks of Google LLC.
  - LDAC™ and LDAC logo are trademarks of Sony Corporation.
  - The BLUETOOTH® word mark and logos are registered trademarks owned by the Bluetooth SIG, Inc. and any use of such marks by Sony Corporation is under license. Other trademarks and tradenames are those of their respective owners.
  - The N Mark is a trademark or registered trademark of NFC Forum, Inc. in the United States and in other countries.

  - App Store is a service mark of Apple Inc., registered in the U.S. and other countries.
  - Use of the Made for iPhone badge means that an accessory has been designed to connect specifically to an iPhone product(s) identified in the badge and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards.
  - Please note that the use of this accessory with an Apple product may affect wireless performance.
  - WALKMAN and WALKMAN logo are registered trademarks of Sony Corporation.
  - Other trademarks and trade names are those of their respective owners.
- ™ and ® marks are omitted in the documents.

#### Notes on waterproof and dust proof features (Read before using the system)

##### Waterproof and dust proof performance of the system

The system, with the cap fastened securely, has a waterproof specification of IPX7<sup>1</sup> as specified in "Degree of protection against water immersion" of the IEC60529 "Ingress Protection Rating (IP Code)"<sup>2</sup>, and a dust proof specification of IP6X<sup>2</sup> as specified in "Degrees of protection against solid foreign objects"<sup>3</sup>.

**Liquids that the waterproof performance specifications apply to**

Applicable:	fresh water, tap water, pool water, sea water
Not applicable:	liquids other than the above (soapy water, water with detergent or bath agents, shampoo, hot spring water, etc.)

\*1 IPX7 (Degree of protection against water immersion): For details, refer to the Help Guide.

\*2 IP6X (Degrees of protection against dust): For details, refer to the Help Guide.

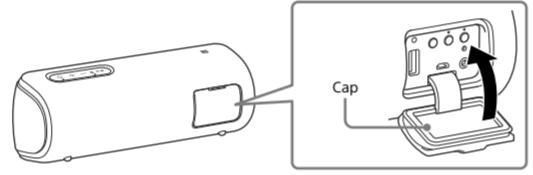

\*3 The supplied accessory is not waterproof or dust proof.

The waterproof and dust proof performance of the system is based on our measurements under the conditions herein described. Note that malfunctions as a result of water immersion or dust intrusion caused by misuse by the customer are not covered by the warranty.

##### To avoid deterioration of waterproof and dust proof performance

Check the following and use the system correctly.

- The system passes the drop test from 1.22 m (4 ft) on plywood of 5 cm (2 in) thickness conforming to MIL-STD 810 F Method 516.5-Shock. However, this does not guarantee no damage or deterioration of waterproof and dust proof performance in all conditions. Deformation or damage from dropping the system or subjecting it to mechanical shock may cause deterioration of the waterproof and dust proof performance.
- Do not use the system in a location where large amounts of water or hot water may splash on it. The system does not have a design that is resistant to water pressure. Use of the system in a location where high water pressure is applied, such as under running water or in the shower, may cause a malfunction.
- Do not pour hot-temperature water or hot air from a hair dryer or any other appliance on the system directly. Also, never use the system in high temperature locations such as in saunas or near a stove.
- Handle the cap with care. The cap plays a very important role in maintenance of the waterproof and dust proof performance. When using the system, make sure that the cap is closed completely. When closing the cap, be careful not to allow foreign objects inside. If the cap is not closed completely the waterproof and dust proof performance may deteriorate and may cause a malfunction of the system as a result of water or dust particles entering the system.

##### How to care for the system

Although the fabric part of the system has water repellent treatment applied, you can use the system more comfortably and for a longer period of time by following the maintenance procedure below.

- If the surface of the system gets dirty in the following cases, wash the system with fresh water (tap water, etc.) promptly to remove the dirt. Leaving dirt on its surface may cause the fabric part to discolor or deteriorate, or the system to malfunction.
  - When salt, sand, etc. is stuck on the system after using it on a beach, pool side, etc.
  - When the system is stained with foreign substances (sunscreen, suntan oil, etc.)
  - If the system gets wet, wipe off the moisture using a dry soft cloth immediately. In addition, dry the system in an airy place until no moisture remains.
  - The sound quality may change when water enters the speaker section of the system. It is not a malfunction. Wipe off the moisture on its surface, and put the system on a dry soft cloth with the SONY logo facing down to drain the collected water inside the system. Then, dry the system in an airy place until no moisture remains.
- Note
  - If the surface of the system gets dirty, do not use detergent, thinner, benzine, alcohol, etc. to clean the system because it will affect the water repellent function of the fabric part of the system.
  - Especially in cold regions, be sure to wipe off the moisture after using the system. Leaving moisture on its surface may cause the system to freeze and malfunction.
  - Do not place the system directly on sand, such as in a sandbox or on a sandy beach. If sand grains, etc. enter the fabric part of the system, remove them carefully. Never use a vacuum cleaner, etc. on the system. It may cause damage of the speaker unit.

##### Specifications

###### Speaker section

Speaker system Approx. 48 mm (1 15/16 in) dia. × 2

Enclosure type Passive radiator model

###### BLUETOOTH

Communication System BLUETOOTH Specification version 4.2

Output BLUETOOTH Specification Power Class 1

Maximum communication range Length of approx. 30 m (98 ft)<sup>1</sup>

Frequency band 2.4 GHz band (2.4000 GHz - 2.4835 GHz)

Modulation method FHSS

Compatible BLUETOOTH Profiles<sup>2</sup>

A2DP (Advanced Audio Distribution Profile)

AVRCP (Audio Video Remote Control Profile)

HSP (Headset Profile)

HFP (Hands-free Profile)

Supported Codec<sup>3</sup> SBC<sup>4</sup>, AAC<sup>5</sup>, LDAC<sup>6</sup>

Transmission range (A2DP)

20 Hz - 20,000 Hz (Sampling frequency 44.1 kHz)

\*1 The actual range will vary depending on factors such as obstacles between devices, magnetic fields around a microwave oven, static electricity, reception sensitivity, antenna's performance, operating system, software application, etc.

\*2 BLUETOOTH standard profiles indicate the purpose of BLUETOOTH communications between devices.

\*3 Subband Coding

\*4 LDAC is an audio coding technology developed by Sony that enables the transmission of High-Resolution (Hi-Res) Audio content, even over a BLUETOOTH connection. Unlike other BLUETOOTH compatible coding technologies such as SBC, it operates without any down-conversion of the Hi-Res Audio content<sup>7</sup>, and allows approximately three times more data<sup>8</sup> than those other technologies to be transmitted over a BLUETOOTH wireless network with unprecedented sound quality, by means of efficient coding and optimized packetization.

\*7 Excluding DSD format contents.

\*8 A comparison with SBC (Subband Coding) where the bitrate of 990 kbps (96/48 kHz) or 909 kbps (88/24.1 kHz) is selected.

###### Note

Depending on the network environment, there may be an interruption at the high bitrate transmission.

###### Microphone

Type Electret condenser

Directional characteristic Omni directional

Effective frequency range 100 Hz - 7,000 Hz

###### Amplifier section

POWER OUTPUT AND TOTAL HARMONIC DISTORTION:

With 4 ohm loads, both channels driven, from 100 Hz - 10,000 Hz; rated 6 watts per channel minimum RMS power at stereo mode, with no more than 1% total harmonic distortion from 1 watt to rated output.

#### General

Input

DC

## Spécifications

Section haut-parleur  
Haut-parleurs Environ 48 mm (1<sup>15/16</sup> po) de diamètre × 2

Type d'enceinte acoustique  
Modèle à radiateur passif

### BLUETOOTH

Système de communication Spécification BLUETOOTH version 4.2

Sortie Spécification BLUETOOTH classe de puissance 1

Portée maximale des communications Environ 30 m (98 pi) en ligne directe<sup>1</sup>

Bande de fréquences Bande 2,4 GHz (2,4000 GHz - 2,4835 GHz)

Méthode de modulation FHSS

Profils BLUETOOTH compatibles<sup>2</sup>

A2DP (Advanced Audio Distribution Profile)  
AVRCP (Audio Video Remote Control Profile)  
HSP (Headset Profile)  
HFP (Hands-free Profile)

Codecs pris en charge<sup>3</sup>

SBC<sup>4</sup>, AAC<sup>5</sup>, LDAC<sup>6</sup>

Plage de transmission (A2DP)

20 Hz - 20 000 Hz (fréquence d'échantillonage 44,1 kHz)

<sup>1</sup> La portée réelle variera selon des facteurs tels que les obstacles entre les dispositifs, les champs magnétiques autour d'un four à micro-ondes, l'électricité statique, la sensibilité de la réception, la performance de l'antenne, le système d'exploitation, le logiciel d'application, etc.

<sup>2</sup> Les profils BLUETOOTH standard indiquent le but des communications BLUETOOTH entre les dispositifs.

<sup>3</sup> Codec : format de compression et de conversion des signaux audio

<sup>4</sup> Codec de la sous-bande

<sup>5</sup> Codage avancé

<sup>6</sup> LDAC est une technologie de codage audio développée par Sony qui permet la transmission de contenu Audio haute résolution (Haute résolution), même par le biais d'une connexion BLUETOOTH. Contrairement aux autres technologies de codage compatibles BLUETOOTH telles que SBC, cette fonctionne sans effectuer de conversion descendante du contenu Audio haute résolution<sup>7</sup> et permet à environ trois fois plus de données<sup>8</sup> que ces autres technologies d'être transmises par le biais d'un réseau sans fil BLUETOOTH avec une qualité sonore inégalée, au moyen d'un codage efficace et d'une mise en paquets optimisée.

<sup>7</sup> Excluant les contenus au format DSD.

<sup>8</sup> En comparaison avec SBC (Codage de sous-bande) lorsque le débit binaire de 990 kbit/s (96/48 kHz) ou 909 kbit/s (88,2/44,1 kHz) est sélectionné.

### Remarque

Selon l'environnement réseau, une interruption peut survenir lors de la transmission à débit binaire élevé.

### Microphone

Type Condensateur à électret

Caractéristiques directionnelles Omnidirectionnel

Plage de fréquences efficace 100 Hz - 7 000 Hz

### Section amplificateur

#### PUISSE DE SORTIE ET DISTORSION HARMONIQUE TOTALE :

Avant des charges de 4 ohms, les deux canaux étant alimentés, de 100 Hz - 10 000 Hz, puissance efficace RMS minimale de 6 watts par canal en mode stéréo, avec une distorsion harmonique totale inférieure ou égale à 1 %, de 1 watt à la puissance de sortie nominale.

Généralités

Entrée Prise AUDIO IN (mini-prise stéréo)

Sortie DC OUT Prise USB Type A (pour charger la pile d'un périphérique raccordé) (5 V, max. 1 A)

Alimentation 5 V CC (lors de l'utilisation d'un adaptateur CA USB disponible sur le marché, capable de délivrer un courant de 1,5 A) ou lors de l'utilisation de la pile au lithium-ion intégrée

Autonomie de la pile au lithium-ion (lors de l'utilisation de la connexion BLUETOOTH) Environ 24 heures<sup>9</sup> <sup>10</sup>  
Si le niveau de volume du système est réglé au maximum, l'autonomie sera d'environ 4 heures.<sup>10</sup>

Dimensions (parties saillantes et commandes comprises) Environ 231 mm × 87 mm × 81 mm (9 1/4 po × 3 1/2 po × 3 1/4 po) (l/h/p)

Masse Environ 890 g (1 lb 15 oz) y compris la pile

Accessoire fourni Câble micro-USB (1)

<sup>9</sup> Lorsqu'une source musicale spécifiée est utilisée, le niveau de volume du système est réglé à 21, le mode sonore est réglé à STANDARD et l'éclairage est éteint.

<sup>10</sup> La durée peut varier selon la température et les conditions d'utilisation.

### Configuration requise pour le chargement de la pile via USB

Lors de l'utilisation d'un adaptateur CA USB disponible sur le marché, capable de délivrer un courant de 1,5 A

### Modèles de iPhone/iPod compatibles

iPhone 8, iPhone 8 Plus, iPhone 7, iPhone 7 Plus, iPhone SE, iPhone 6s, iPhone 6s Plus, iPhone 6, iPhone 6 Plus, iPhone 5s, iPhone 5c, iPhone 5, iPhone 4s, iPod touch (6<sup>e</sup> génération) et iPod touch (5<sup>e</sup> génération)

### Remarque

Sony décline toute responsabilité en cas de perte ou d'endommagement des données enregistrées sur un iPhone/iPod lors de l'utilisation d'un iPhone/iPod raccordé à ce système.

La conception et les caractéristiques sont sujettes à modifications sans préavis.

## Español

### Altavoz inalámbrico

Antes de operar el sistema, lea esta guía cuidadosamente y guárdela para consultas en el futuro.

### Registro del propietario

El número de serie se encuentra en el interior de la cubierta en la parte trasera del producto. Anote el número de serie en el espacio provisto a continuación. Consultelo cuando llame a su distribuidor Sony en relación con este producto.

Nº de modelo SRS-XB1

Nº de serie \_\_\_\_\_

### ADVERTENCIA

Para reducir el riesgo de incendio, no cubra la apertura de ventilación del aparato con periódicos, mantellos, cortinas, etc.

No exponga el aparato a fuentes de llama abierta (por ejemplo, velas encendidas).

No sitúe el aparato en un espacio cerrado, como una estantería o un armario empotrado.

No exponga las baterías (el paquete de baterías o las baterías instaladas) a un calor excesivo como el sol directo, fuego o similar durante un período prolongado.

### PRECAUCIÓN

Se le advierte de que la realización de cambios o modificaciones no aprobados explícitamente en este manual pueden anular su autoridad para utilizar este equipo.

### Para clientes en los EE. UU.

Este dispositivo cumple con la Sección 15 de las Normas FCC. El uso del dispositivo se encuentra sujeto a las siguientes condiciones: (1) Este dispositivo no puede causar interferencias dañinas, y (2) Este dispositivo debe aceptar cualquier interferencia recibida, incluidas las que puedan causar un funcionamiento no deseado.

Nota:

Este equipo ha sido probado y se ha comprobado que cumple con los límites para un dispositivo digital de Clase B de acuerdo con la Parte 15 de las Reglas FCC. Dichos límites se establecieron para proporcionar una protección razonable contra interferencias dañinas en una instalación residencial. Este equipo genera, utiliza y puede emitir energía de radiofrecuencia y, si no se instala y utiliza según las instrucciones, puede causar interferencias dañinas a las radiocomunicaciones. No obstante, no garantiza que no se produzcan interferencias dentro de una instalación en particular. Si este equipo produce interferencias dañinas para la recepción de radio o televisión, cosa que se puede determinar al moverlo o apagarlo, se recomienda al usuario que intente corregir dichas interferencias mediante una o más de las siguientes medidas:

- Cambiar la orientación o la ubicación de la antena de recepción.
- Conectar el equipo a un tomacorriente de un circuito distinto del que está enchufado el receptor.
- Ponerte en contacto con el distribuidor o con un técnico capacitado en radio y televisión para que le ayuden.

Este equipo cumple con los límites de exposición a la radiación de FCC/IC establecidos para un ambiente no controlado y cumple con las pautas de exposición a radiofrecuencia FCC (RF) y con RSS-102 de las normas de exposición de radiofrecuencia de IC (RF). Este equipo se debe instalar y operar manteniendo el radiador por lo menos a 20 cm (7 1/4 pulg.) o más de distancia del cuerpo de la persona.

El equipo no debe colocarse ni utilizarse junto con ninguna otra antena o transmisor.

### Instrucciones de seguridad importantes

- 1) Lea estas instrucciones.

2) Guarde estas instrucciones.

3) Preste atención a todas las advertencias.

4) Siga todas las instrucciones.

5) No utilice agua caliente ni agua fría.

6) No bloquee ninguna abertura de ventilación.

7) Instale el aparato de acuerdo con las instrucciones del fabricante.

8) No anule la función de seguridad de la clavija polarizada o de tipo con puesta a tierra. Una clavija polarizada tiene dos cuchillas y una tercera espiga de puesta a tierra. La cuchilla o la tercera espiga están provistas para su seguridad. Si la clavija provista no encaja en su toma de corriente, consulte con un electricista para que le reemplace la toma de corriente obsoleta.

9) Proteja el cable de alimentación para impedir que pueda ser pisado o pinchado, particularmente en los enchufes, tomas de corriente con extensión eléctrica y puntos donde salen del aparato.

10) Utilice solamente aditamentos/accesorios especificados por el fabricante.

11) Utilicelo solamente con el carrito, estante, trípode, soporte, o mesa especificado por el fabricante, o vendido con el aparato. Cuando se utilice un carrito, tenga cuidado al mover la combinación de carrito/aparato para evitar que se vuelque y le ocasione heridas.

12) Desenchufe este aparato durante las tormentas eléctricas o cuando no lo vaya a utilizar durante largos períodos de tiempo.

13) Solicite toda asistencia técnica a personal cualificado. El servicio de reparación será necesario cuando el aparato haya sido dañado de cualquier forma, tal como cuando esté dañado el cable de alimentación o la clavija, se haya derramado líquido o hayan caído objetos al interior del aparato, el aparato haya sido expuesto a la lluvia o humedad, no funciona normalmente, o se haya dejado caer.

Si su piel entra en contacto con este producto por un tiempo prolongado cuando está encendido, puede ocasionar una lesión por baja temperatura.

### Precauciones

#### Seguridad

• La placa de identificación y la información relativa a información importante sobre seguridad se encuentran dentro en la parte trasera de la cubierta del sistema.

#### Ubicación

• No coloque el sistema en una posición inclinada.

• No deje el sistema cerca de fuentes de calor, ni en lugares expuestos a la luz solar directa, polvo excesivo, o golpes mecánicos.

• No utilice o deje el sistema en un automóvil.

• No utilice el sistema en un sauna.

#### Acera de la función Party Booster

Si el sistema coloca a otra persona o a una cosa, podría producirse un accidente, lesión o una falla de funcionamiento. Cuando se use la función Party Booster observe lo siguiente:

- No olvide desconectar el cable micro-USB, etc. del sistema.
- No olvide cerrar la cubierta después de usar el sistema.
- Cuando use esta función, sostenga firmemente el sistema y no lo sacuda violentamente para no tirar ni dejar caer el sistema de su mano.
- Ante de usar la función, asegúrese de tener suficiente espacio seguro alrededor del sistema.
- No golpee el sistema con una herramienta.
- No use la función mientras conduce o camina.
- Manténgalo a una distancia de 20 cm (7 1/4 pulg.) o más de la cara y los ojos mientras lo esté usando.
- Evite usar la función por un tiempo prolongado. Realice descansos regularmente.
- Cuando use la función, si se cesa, se siente incómodo o experimenta dolor en alguna parte del cuerpo, deje de usar la función inmediatamente.

• No coloque ni deje el sistema en lugares extremadamente fríos o extremadamente calientes (temperaturas por fuera del rango de 5 °C a 35 °C (41 °F a 95 °F)). Si usa o deja el sistema en lugares con temperaturas fuera del rango antes mencionado, es posible que el sistema se detenga automáticamente para proteger los circuitos internos.

• Es posible que a una alta temperatura se detenga la carga o se reduzca el volumen para proteger la batería.

• Incluso si no pretende utilizar el sistema por mucho tiempo, cargue la batería por completo una vez cada 6 meses para mantener su desempeño.

#### Para clientes de los EE. UU. Y CANADÁ

#### RECICLADO DE BATERÍAS RECARGABLES

Las baterías recargables son reciclables.

Usted podrá ayudar a conservar el medio ambiente devolviendo las baterías usadas al punto de reciclaje más cercano.

Para más información sobre el reciclado de baterías, visite [www.sony.com/electronics/eco/environmental-management](http://www.sony.com/electronics/eco/environmental-management)

Precaución: No utilice baterías recargables dañadas o con fugas

#### Acera de la orientación de la voz

#### IMPORTANTE: LA ORIENTACIÓN DE LA VOZ ESTÁ DISPONIBLE EN ESTE PRODUCTO SOLO EN INGLÉS

Dependiendo del estado del sistema, la orientación de la voz sale desde el altavoz de la siguiente manera:

- Cuando se configura el sistema en el modo sincronización; "Bluetooth pairing" (sincronización Bluetooth)
- Cuando se presiona el botón BATT (batería) para revisar la carga de la batería durante el encendido del sistema; "Battery fully charged/Battery about 70%/Battery about 50%/Battery about 20% Please charge" (Batería completamente cargada/Batería con carga de alrededor del 50 %/Batería con carga de alrededor del 20 %/Realizar una carga)
- Cuando la carga de la batería está baja; "Please charge" (Realice una carga)
- Cuando se completan los ajustes para la función agregar bocina; "Double mode" (modo doble)
- Cuando mantiene presionado el botón ADD (Agregar altavoz) durante la función agregar bocina; "Left/Right/Double mode" (Izquierda/derecha/Modo doble)
