

ICONIC SERIES
HAIKU

ELICA'S EXCLUSIVE PLUS FEATURES

UNIQUE MATERIALS

LONG LIFE FILTER

TOTAL INTEGRATION

DEEP SILENCE

CLEAN FILTER ALARM

REPLACE FILTER ALARM

Harmony and simplicity. With its reduced depth, Haiku is a particularly ergonomic product without compromising its suction capacity. The aesthetic linearity can be seen in the cast iron effect aluminum grilles, which strongly characterize the product. They are easy to remove and equipped with a blocking system designed to avoid accidental falls.

HAIKU HAS THE ONLY SYSTEM WITH ADJUSTABLE DEPTH.

PLUS FEATURES

UNIQUE MATERIALS - Products designed in unique materials and finishes with great aesthetic impact but also with practical and durable characteristics, perfect for use in the kitchen.

LONG LIFE FILTER - One of a kind odour filter, capable of regenerating itself and of lasting up to 3 years. To maintain these characteristics, the filter only requires simple maintenance: wash every 2 or 3 months with hot water and mild soap (also in dishwasher at 65 degrees) and dry in the oven for ten minutes at 100 degrees.

TOTAL INTEGRATION - These products have been designed to be seamlessly integrated into the kitchen whilst maintaining harmony with the surroundings.

DEEP SILENCE - Haiku is equipped with Deep Silence noise abatement system that allows you to achieve high silence at all speeds thanks to the elimination of vortices and noise peaks.

REPLACE FILTER ALARM - When activated, your hood will emit a "beep" signal let you know when is time to replace the carbon filters. See instructions manual to activate feature.

CLEAN FILTER ALARM - When activated, your hood will emit a "beep" signal to let you know when is time to clean your filters. For some models, an intermittent light will remain active until cleaning filter action is completed. See instructions manual to activate feature.
