COOKING

Hestan reinvented the restaurant kitchen. And now we've reimagined yours. Hestan offers the most powerful sealed burner available on the residential market – the same one used by acclaimed chefs Thomas Keller, Grant Achatz and Matty Matheson. Our revolutionary Smart Gas Ranges and Rangetops allow you to control your flame by exact temperature. And Hestan Induction combines chef-grade power with precision control and earth-friendly efficiency. Every detail in the Hestan cooking lineup is designed to empower you. To give you more control. More confidence. More dazzling dinner parties.

36" Smart Gas Dual Fuel Range

FORGET LO, MED AND HI. Set your flame to a precise temperature with Smart Gas Technology. Your burner will then adjust to maintain the perfect cooking temp as you add ingredients.

Control means everything in the kitchen. Hestan Smart Cooking products ensure precision control to elevate your results. Smart Gas Ranges and Rangetops give the ability to dial in your flame to the exact degree, not just guessing by size. Then it automatically maintains that perfect temperature as you cook. Smart Induction Cooktops take incredibly efficient and responsive induction cooking to brilliant new heights with Hestan's Smart Cooking Technology. Acclaimed chefs walk you through new dishes and techniques with guided recipe videos, while your cooktop automatically adjusts to the perfect temperature for every step.

SMART INDUCTION COOKING Hestan Smart Cooking Technology is integrated into our Smart Induction Cooktop. When paired with Bluetooth-enabled cookware and the app on your tablet or smartphone, your cooktop becomes a culinary school. Chef-guided videos walk you through each step and technique for hundreds of recipes.

Induction

30" Induction Range

36" Induction Range

Induction cooking has long been lauded as the most efficient way to cook. Now, Hestan delivers chef-worthy culinary power with that incredible efficiency. By transforming your cookware into its own heat source, Hestan’s electro-magnetic elements instantly generate heat with immediately responsive control. So you can sear, simmer and sizzle your way to bigger flavor with a smaller carbon footprint (and a much cooler kitchen).

CHEF-GRADE POWER. NO GAS REQUIRED. Powerful electromagnets transform your cookware into its own heat source. So more heat goes directly to your food instead of heating your kitchen.

REFRIGERATION

Refrigeration is the unsung hero in the kitchen. After all, no matter how well you cook, you can't overcome less-than-fresh ingredients. Hestan refrigerators and freezers improve food preservation with antimicrobial stainless steel, advanced ventilation and EvenFlow Air Circulating Technology™, which traps cold air behind an air curtain even when the door is open. You can also count on our triple-paned, multi-temperature zoned wine cellars and wine refrigerators to safely preserve your reds, whites and bubbles. Undercounter options like our ice machine and beer dispenser give you ultimate host status. And our modular Ensemble Refrigeration Suite™ makes it easy to fit all that performance into any kitchen layout.

Hestan refrigeration works smarter and looks brilliant. Refrigerators and freezers silently and diligently preserve your food and ingredients. A feat of mechanical engineering delivers extra storage depth within standard cabinet depths. Refrigerator and wine cellar bottom drawers offer three independent temperatures zones ranging from fresh food to deep freeze. Wine cellars and wine refrigerators preserve your favorite vintages at the perfect temperature while keeping them safe from light and vibration, if not toast-happy guests. And undercounter refrigeration options, including a beer dispenser, ensure refreshments are always ready wherever the party congregates.

VENTILATION & CLEANUP

54" Chimney Hood
shown in Pacific Fog

There is a direct correlation between the towering pile of dirty dishes and the number of happy guests. So, while you cook up a storm, Hestan ventilation silently corrals the smoke, grease and odors. Your dinner party will never know we're there. Then, after the last glass is cleared and the laughter fades out of the front door, the Hestan dishwasher quietly goes to work – so the only thing that sparkles more than the stemware at your next dinner party will be the conversation.

AUTOMATIC DISHWASHER DOOR OPEN The dishwasher door automatically opens at the end of the cycle. This increased airflow significantly optimizes drying and eliminates water spots. It's also a visible reminder that the dishwasher has finished – because at an ultra-quiet 42dB, your ears will never know the difference.

PATENTED DOUBLE AXIAL WASHING SYSTEM™ produces the most efficient washing process for full coverage and optimum water usage.

Cooking tends to leave behind a joyous mess. Hestan happily (and silently) handles it. Hestan hoods clear the air of even the most intense cooking odors with best-in-class ventilation while safely collecting 70% more grease than most competitors. The dishwasher cleans everything from stock pots to stemware quietly, carefully and thoroughly with its patented Double Axial Washing System™. Then the automatic door pops open to maximize airflow and conserve energy for spot-free drying. It's the next best thing to a magic wand.

Signature Colors

From the classic stainless of Steeetto to a fresh burst of Citra, Hestan offers 12 signature color options to complement your kitchen style. You can also create a seamless look with custom overlays on refrigerators, freezers, dishwashers and hoods. All Hestan finishes are powder-coated to ensure they look beautiful no matter how hard they work for you.
